Slavery & Race in American Popular Culture William L. Van Deburg, 1984 Spanning more than three centuries from the

colonial era to the present Van Deburg's overview analyzes the works of American historians dramatists novelists poets lyricists and filmmakers and exposes through those artists often disquieting perceptions the cultural underpinnings of American current racial attitudes and divisions Crucial to Van Deburg's analysis is his contrast of black and white attitudes toward the Afro American slave experience There has in fact been a persistent dichotomy between the two races literary historical and theatrical representations of slavery If white culture makers have stressed the unmaning of the slaves and encouraged such stereotypes as the Noble Savage and the comic minstrel to justify the blacks subordination Afro Americans have emphasized a counter self image that celebrates the slaves creativity dignity pride and assertiveness ISBN 0 299 09634

3 pbk 12 50     The Motion of History, and Other Plays by Amiri Baraka LeRoi Jones,1978     **In Search of a Model for African-American Drama** Philip U. Effiong,2000 In Search of a Model for African American Drama is a comparative study of how these three dramatists seek and devise new models to address the specific conditions of Blacks in America Each writer relies on a different approach each powerful yet apparently contradictory The author examines the dramatists work in detail exploring common and contrasting themes and models     History Comes Alive M. J. Rymsza-Pawlowska,2017-10-03 During the 1976 Bicentennial celebration millions of Americans engaged with the past in brand new ways They became absorbed by historical miniseries like Roots visited museums with new exhibits that immersed them in the past propelled works of historical fiction onto the bestseller list and participated in living history events across the nation While many of these activities were sparked by the Bicentennial M J Rymsza Pawlowska shows that in fact they were symptomatic of a fundamental shift in Americans relationship to history during the 1960s and 1970s For the majority of the twentieth century Americans thought of the past as foundational to but separate from the present and they learned and thought about history in informational terms But Rymsza Pawlowska argues that the popular culture of the 1970s reflected an emerging desire to engage and enact the past on a more emotional level to consider the feelings and motivations of historic individuals and most importantly to use this in reevaluating both the past and the present This thought provoking book charts the era's shifting feeling for history and explores how it serves as a foundation for the experience and practice of history making today

New Day in Babylon William L. Van Deburg,1993-09-01 The most comprehensive account available of the rise and fall of the Black Power Movement and of its dramatic transformation of both African American and larger American culture With a gift for storytelling and an ear for street talk William Van Deburg chronicles a decade of deep change from the armed struggles of the Black Panther party to the cultural nationalism of artists and writers creating a new aesthetic Van Deburg contends that although its tactical gains were sometimes short lived the Black Power movement did succeed in making a revolution one in culture and consciousness that has changed the context of race in America New Day in Babylon is an extremely intelligent synthesis a densely textured evocation of one of American history's most revolutionary transformations in ethnic group consciousness Bob Blauner New York Times Winner of the Gustavus Myers Center Outstanding Book Award

**Re-writing Pasts, Imagining Futures** Gomia, Victor N., Ndi, Gilbert Shang, 2018-02-20 The papers in this volume focus on fiction and theatre in their traditional forms as well as in their encounters with novel and innovative forms and avenues of dissemination As a cultural practice that emerged from a process of protest and contestation of hegemony it is understandable that one main concern in African literature and literary criticism is the resistance against the emergence of marginalizing centers in formerly or currently marginalized societies with regard to discourses aesthetics and media of creation These new centers that sometimes undermine the strategic tactical exploitation of the relative advantage procured by each medium run the risk of leading to new forms of stratification that mitigate the import of African and African diasporic literatures The collection of essays therefore seeks to analyze the representation of pertinent socio political and historical questions in a variety of postcolonial texts from Africa and the African diasporas notably the Caribbean islands and the United States of America However far from re writing of history in a way that cedes to conservative worldviews creative writers and critics simultaneously attempt to chart ways forward for socially all inclusive futures In the context of colonial and neo colonial legacies that seem to forestall any sense of individual and collective self fulfillment contributors to this volume examine the pertinence of African fiction and theatre in imagining new vistas of re conceptualizing the postcolonial condition in ways that re galvanize the belief in an enabling future

History and Drama Joachim Küpper, Jan Mosch, Elena Penskaya, 2018-12-03 Aristotle's neat compartmentalization notwithstanding Poetics ch 9 historians and playwrights have both been laying claim to representations of the past arguably since Antiquity but certainly since the Renaissance At a time when narratology challenges historiographers to differentiate their emplotments White from literary inventions this thirteen essay collection takes a fresh look at the production of historico political knowledge in literature and the intricacies of reality and fiction Written by experts who teach in Germany Austria Russia and the United States the articles provide a thorough interpretation of early modern drama with a view to classical times and the 19th century as an ideological platform that is as open to royal self fashioning and soteriology as it is to travesty and subverting the means and ends of historical interpretation The comparative analysis of metapoetic and historiosophic aspects also sheds light on drama as a transnational phenomenon demonstrating the importance of the cultural net that links the multifaceted textual examples from France Russia England Italy and the Netherlands
