**Yorkshire Notes and Queries** , 1905      *Exploring the Interior* Karl S. Guthke, 2018-05-24

In this fascinating collection of essays Harvard Emeritus Professor Karl S Guthke examines the ways in which for European scholars and writers of the eighteenth and early nineteenth century world wide geographical exploration led to an exploration of the self Guthke explains how in the age of Enlightenment and beyond intellectual developments were fuelled by excitement about what Ulrich Im Hof called the grand opening up of the wide world especially of the interior of the non European continents This outward turn was complemented by a fascination with the world within as anthropology and ethnology focused on the humanity of the indigenous populations of far away lands an interest in human nature that suggested a way for Europeans to understand themselves encapsulated in Gauguin s Tahitian rumination What are we The essays in the first half of the book discuss first or second hand physical or mental encounters with the exotic lands and populations beyond the supposed cradle of civilisation The works of literature and documents of cultural life featured in these essays bear testimony to the crossing not only of geographical ethnological and cultural borders but also of borders of a variety of intellectual activities and interests The second section examines the growing interest in astronomy and the engagement with imagined worlds in the universe again with a view to understanding homo sapiens as compared now to the extra terrestrials that were confidently assumed to exist The final group of essays focuses on the exploration of the landscape of what was called the universe within featuring among a variety of other texts Schiller s plays *The Maid of Orleans* and *William Tell* these essays observe and analyse what Erich Heller termed *The Artist s Journey into the Interior* This collection which travels from the interior of continents to the interior of the mind is itself a set of explorations that revel in the discovery of what was half hidden in language Written by a scholar of international repute it is eye opening reading for all those with an interest in the literary and cultural history of and since the Enlightenment

**The Ruin of All Witches** Malcolm Gaskill,2022-11-01 A gripping story of a family tragedy brought about by witch hunting in Puritan New England that combines history anthropology sociology politics theology and psychology The best and most enjoyable kind of history writing Malcolm Gaskill goes to meet the past on its own terms and in its own place Thought provoking and absorbing Hilary Mantel best selling author of Wolf Hall In Springfield Massachusetts in 1651 peculiar things begin to happen Precious food spoils livestock ails property vanishes and people suffer convulsions as if possessed by demons A woman is seen wading through the swamp like a lost soul Disturbing dreams and visions proliferate Children sicken and die As tensions rise rumours spread of witches and heretics and the community becomes tangled in a web of distrust resentment and denunciation The finger of suspicion soon falls on a young couple with two small children the prickly brickmaker Hugh Parsons and his troubled wife Mary Drawing on rich previously unexplored source material Malcolm Gaskill vividly evokes a strange past one where lives were steeped in the divine and the diabolic in omens curses and enchantments The Ruin of All Witches captures an entire society caught in agonized transition between superstition and enlightenment tradition and innovation
