Henri Bergson

The Multiplicity Of Conscious States And The Idea Of Duration

Henri Bergson

The Multiplicity Of Conscious States And The Idea Of Duration:

Time and Free Will Henri Bergson, 2008-12-01 One of the most remarkable philosophers of the early 20th century Henri Bergson attempted to blend the new understandings of biological sciences with concepts of human consciousness in such books as 1907's *Creative Evolution*. With this extraordinary work first published in French in 1889 Bergson anticipates Einstein's theory of relativity and the coming revolution in theoretical physics with his exploration of free will as a function of time. *Time and Free Will* first translated in English by FRANK LUBECKI POGSON d 1910 in 1910 served as Bergson's doctoral thesis and offered the foundations of his highly influential theory of Duration: a defense of free will that solves the problems with the concept that previous philosophers had encountered with it. Students of modern philosophy and high end physics alike will find this a challenging but rewarding read. French philosopher HENRI BERGSON 1859-1941 was awarded the Nobel Prize for Literature in 1927 and is said to have influenced thinkers such as Marcel Proust, William James, Santayana, and Martin Heidegger. Among his works are *Matter and Memory* 1896, *An Introduction to Metaphysics* 1903, and *The Two Sources of Morality and Religion* 1932. [Contemplating music](#) Ruth Katz, 1989

The Multiplicity of Conscious States and the Idea of Duration Henri Bergson, 2005-12 This scarce antiquarian book is a facsimile reprint of the original. Due to its age it may contain imperfections such as marks, notations, marginalia, and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high-quality modern editions that are true to the original work. *Philosophical Reflexivity and Entrepreneurship Research* Alain Fayolle, Stratos Ramoglou, Mine Karatas-Ozkan, Katerina Nicolopoulou, 2018-05-15

Philosophy is inescapable. This is the powerful mantra and call to action of this authoritative and informative collection of essays. Acting upon the conviction that empirical scrutiny only takes us so far in understanding the full nature of entrepreneurship, this text provides a set of thoughtful and refreshing commentaries on the different ways in which philosophical assumptions shape entrepreneurship research. Entrepreneurship scholarship will be richer for the reading of it.

Denise Elaine Fletcher, Professor of Entrepreneurship and Innovation, University of Luxembourg, Luxembourg. This book offers the reader a variety of philosophical ideas and approaches to spur reflection on taken-for-granted assumptions about what entrepreneurship is and the ways entrepreneurship scholars understand this phenomenon. The chapters in this book go beyond critiquing current ideas and perspectives; rather, the book opens up important lines of inquiry in such topic areas as uncertainty, the imagination, social construction, critical realism, and the nature of failure. I expect that many of the insights from this book will provide directions for major avenues of entrepreneurship scholarship over the next decade. Scholars who want clues about the future direction of the entrepreneurship field would be wise to explore this book.

William B. Gartner, Bertarelli Foundation Distinguished Professor of Family Entrepreneurship, Babson College, USA

The Multiplicity of Conscious States and the Idea of Duration Henri Bergson, 2010 **Mind**, 1912 A quarterly review of philosophy **The**

Athenæum ,1910 Athenaeum and Literary Chronicle ,1910 The Athenaeum ,1910 *The Origin of Time* Heath Massey,2015-02-23 A critical examination of the relationship between the philosophies of Martin Heidegger and Henri Bergson focusing on the central issue of time The recent renewal of interest in the philosophy of Henri Bergson has increased both recognition of his influence on twentieth century philosophy and attention to his relationship to phenomenology Until now the question of Martin Heidegger s debt to Bergson has remained largely unanswered Heidegger s brief discussion of Bergson in *Being and Time* is geared toward explaining why he fails in his attempts to think more radically about time Despite this dismissal a close look at Heidegger s early works dealing with temporality reveals a sustained engagement with Bergson s thought In *The Origin of Time* Heath Massey evaluates Heidegger s critique of Bergson and examines how Bergson s efforts to rethink time in terms of duration anticipate Heidegger s own interpretation of temporality Massey demonstrates how Heidegger follows Bergson in seeking to uncover primordial time by disentangling temporality from spatiality how he associates Bergson with the tradition of philosophy that covers up this phenomenon and how he overlooks Bergson s ontological turn in *Matter and Memory* Through close readings of early major works by both thinkers Massey argues that Bergson is a much more radical thinker with respect to time than Heidegger allows **Time in the Poetry of T. S. Eliot** Nancy K. Gish,1981-06-18 Bergson And Modern Thought Pete A Y Gunter,Andrew C. Papanicolaou,2016-05-13 First Published in 1987 This book explores the implications of Henri Bergson s philosophy for contemporary science discussing the misinformed view that Bergsonism stands for a romantic revival of anti scientific vitalism notwithstanding Likewise this study draws value in that Bergson s philosophy appears to offer guidelines as to how to restore paradigmatic cohesiveness between modern physics and the life sciences The authors argue that Bergson s ideas stand a better chance of being appreciated and their heuristic value harnessed today because the infra structure alluded to before is now in place *Time and Free Will (Annotated Edition)* Henri Bergson,2018-11-01 *Time and Free Will* essay deals with the problem of free will which Bergson contends is merely a common confusion among philosophers caused by an illegitimate translation of the unextended into the extended as a means of introducing his theory of duration which would become highly influential among continental philosophers in the following century **The Collected Works of Henri Bergson** Henri Bergson,2023-12-29 In *The Collected Works of Henri Bergson* the eminent French philosopher presents a compendium of his seminal writings elucidating the nature of consciousness time and free will Bergson s literary style is characterized by its accessibility and lyrical prose inviting readers to grapple with complex metaphysical concepts through vivid metaphors and illustrative anecdotes Situated in the intellectual context of early 20th century philosophy this collection reflects the tension between traditional rationalist thought and the burgeoning movement of phenomenology and existentialism positioning Bergson as a pivotal figure in the philosophical discourse on life and experience Henri Bergson awarded the Nobel Prize in Literature in 1927 carved a profound niche within philosophical debates influenced by both

scientific advancements and the arts His upbringing in a Jewish intellectual milieu and his exposure to diverse philosophical traditions including Kant and Nietzsche shaped his perspective on the fluidity of human experience Bergson's critique of mechanistic interpretations of life underscores his advocacy for intuitive knowledge and the immediacy of lived experience themes that resonate throughout his collected works For anyone interested in the interplay of philosophy psychology and the human condition The Collected Works of Henri Bergson offers rich insights and profound reflections This volume is essential for both students of philosophy and general readers as it not only deepens our understanding of Bergson's thought but also invites us to reconsider the very fabric of our own experiences

Deleuze and Ricoeur Declan Sheerin, 2009-08-03 What is the self Is it the impregnable cogito of Descartes or the shattered self of Nietzsche Or has it become serendipitously constituted from pieces of fairy tales and novels childhood comics and soap operas a multitude of forces culled from fashion modern myth culture and recreation Or must we still convince ourselves like Rousseau that the self can never be tainted that it is above all else irrefrangible Paul Ricoeur proposed that the self is formed within the narratives we tell of ourselves that it is itself a form of narrative But is this enough Could a self cohere in a multitude of potential narratives or find unity among its stories In this book Declan Sheerin challenges the theory that the self is narrative alone or that concordance reigns over discordance in the self Drawing upon the works of Gilles Deleuze he proposes that deep to the sense of a unified represented self is a more fundamental self of difference a self that is more than merely coherent narrative

The Classic Collection of Henri Bergson. Nobel Prize 1927. Illustrated Henri Bergson, 2023-05-22 The Classic Collection of Henri Bergson brings together some of the most influential philosophical works of Henri Bergson the renowned French philosopher and recipient of the Nobel Prize in Literature in 1927 This collection showcases Bergson's groundbreaking ideas and profound insights into the nature of time consciousness memory evolution laughter and dreams In *Time and Free Will* Bergson challenges traditional concepts of time and argues for the existence of subjective time exploring the relationship between time perception and human freedom *Matter and Memory* delves into the interplay between matter and consciousness examining how memory shapes our understanding of reality Bergson's *Creative Evolution* presents a groundbreaking theory of evolution that goes beyond the mechanistic view of life emphasizing the vital force and the continuous emergence of novelty in the evolutionary process *Laughter* explores the nature of humor its role in human social interaction and its connection to the human condition Finally *Dreams* offers a deep exploration of the realm of dreams unveiling their significance in understanding the workings of the human mind and their potential for revealing hidden truths Through his eloquent and thought provoking writing Bergson challenges established philosophical frameworks offering fresh perspectives on fundamental concepts of existence and human experience This collection is a valuable resource for scholars students and anyone interested in the philosophical inquiries that shaped the 20th century and beyond

The Multiplicity Of Conscious States And The Idea Of Duration: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the captivating narratives that have captivated audiences this year. The Multiplicity Of Conscious States And The Idea Of Duration : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. The Multiplicity Of Conscious States And The Idea Of Duration : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and suspenseful novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
