Iranian political correspondent are shattered to pieces when he is informed that instead of flying to Saigon he will have to travel to London to report on the World Cup To him this is an insignificant matter at a time when the world is silently burning in the flames of wars and in the coldness of the Cold War However to his surprise he finds football to be a new global language World Cup 1966 in particular appears to be reuniting people all over the globe In the middle of the worlds unrest World Cup 1966 is a moment of fresh air From the early elimination of the two time champions Brazil and Italy to the phenomenal appearance of North Korea from the brave Portuguese men who gave their all to stay longer in the competition to the proud Germans who made every effort to repair the broken image of their nation from the tears of Black Pearl to the nine goals of Black Panther and from Englands disappointing draw in the opening match to their glorious victory in the Final the story brings back all the ups and downs of World Cup 1966 set against a stark backdrop of world events that defined that tumultuous time period **Sport, History, and Heritage** Jeff Hill, Kevin Moore, Jason Wood, 2012 Sport is an integral part

of British culture and an important aspect of modern life but although its importance has been recognised in academic history in the growing and related fields of heritage and museum studies it has yet to be fully appreciated and brought into interaction More with historical studies Ideologically sport and heritage both convey powerful messages responsible for

shaping our understanding of sport history and the past although they have essentially operated as separate spheres one important aspect of convergence between them is seen in the rise and popularity of sports museums the collecting of sporting art and memorabilia and popular concern over the demise of historic sports buildings and places The essays in this volume look at sports history as manifested in academic enquiry museum exhibition and heritage sites They deal among other things with the public representation of sport and why it matters its impact on public spheres the direction of sports heritage studies and what they should be attempting to achieve the role of museums in public history and the place memory and meaning in the historic sports landscape
