worst elements of human depravity where foul deeds and murder were commonplace and in 1888 the area's disrepute was added to by the horrific murders committed by Jack the Ripper. The East End was populated by people crammed together in close knit communities. As the district grew from the ancient villages along the river, much of the village atmosphere and rivalry remained along with some of the worst corruption and vilest slums to be found anywhere in the country. For instance, the residents of Bethnal Green looked down their noses at those from Hoxton, barely half a mile away. During the 1930s, after the Depression, a government report estimated 60 percent of the children in Bethnal Green suffered from malnutrition and 85 percent of the housing was unsatisfactory. These were the times when the infamous Kray Twins were cutting their teeth. The East End's claim to fame in the annals of crime in England is not without justification as the pages of this book show.

**London: The Executioner's City** David Brandon, Alan Brooke, 2022-06-30 Tyburn Fields is the best known site of execution in London but London may be aptly named the executioner's city so many were the places where executions could and did occur. This book reveals the capital as a place where the bodies of criminals defined the boundaries of the city and heads on poles greeted patrons on London Bridge. **Billington** Alison Bruce, 2011-10-24 An insightful and gripping account that will take you into the dark but fascinating world of a Victorian executioner. Stewart P. Evans. Between 1884 and 1905 James Billington and his three sons Thomas, William and John were responsible for 235 executions in Victorian Great Britain and Ireland. They hanged many notorious murderers but equally fascinating is the story of the family. Did James really feel he served society and justice or did this position satisfy something more personal? Billington, Victorian Executioner provides a complete account of the stories behind James Billington's executions as well as the real man behind the rope, a man whose business was death. This enthralling biography is an exciting addition to any true crime bookshelf. **Criminal Poisoning** John H. Trestrail, III, 2007-10-28 In this revised and expanded edition of his critically acclaimed Criminal Poisoning Investigational Guide for Law Enforcement, Toxicologists, Forensic Scientists and Attorneys, leading forensic scientist John Trestrail offers a pioneering survey of all that is known about the use of poison as a weapon in murder. Topics range from the use of poisons in history and literature to convicting the poisoner in court and include a review of the different types of poisons, techniques for crime scene investigation and the critical essentials of the forensic autopsy. The author updates what is currently known about poisoners in general, psychological profile types and statistical analyses and their victims, who gets poisoned, investigative considerations and classic symptoms of poisoning. The Appendix has been updated to include the more commonly used poisons as well as the use of antifreeze as a poison to reflect some cases that have recently come to light. *Foul Deeds & Suspicious Deaths in London's West End* Geoffrey Howse, 2006-04-06 London's West End is associated with fashion and glamour but for centuries it has had a far darker side. Geoffrey Howse has uncovered an astonishing catalogue of sinister deeds, some of them famous but others long forgotten.
