Museums and Library Collections of 20th Century Conflicts Steve Rajtar, Frances Elizabeth Franks, 2015-07-11 This unique state by state directory covers monuments memorials museums markers statues and library collections that relate to the veterans weapons vehicles airplanes victims or any other aspect of war in which the United States participated While a site may have been created before 1900 such as a fort there must be some operational or historical tie to a twentieth century conflict to be included here General collections such as museums of aviation are included if they house materials related to a twentieth century conflict The coverage is so thorough that statues honoring veterans of the Civil War appear if veterans of later wars are on their rosters of honorees Another example of the comprehensiveness of this compilation is in the inclusion of memorials to victims of war such as the Holocaust Museum in Houston Texas For each site the following information is given street address phone number website and email address if applicable days and hours of operation admission fees other necessary information and a brief description of the site Thinking Color in Space Kerstin Schultz, Hedwig

Wiedemann-Tokarz, Eva Maria Herrmann, 2018-12-03 The interaction between color and architecture determines our perception of space and defines the tectonic relationships The fascinating spatial potential of color and the multi layered dimensions of interpretation in the experience of color are design and communication means which however are often not fully used color oscillates between autonomy and functional purpose and should be understood as a distinct material that can be used as part of the design The book focuses both on the tangible aspects and design criteria of color and on its indeterminate nature and its experience value Using examples in art and architecture the spatial interdependency of color is illustrated as is its interaction with structure light and geometry **Emily Out of Focus** Miriam Spitzer
