Jean Baptiste Biot, 1829 Memoirs of the Life, Writings, and Discoveries of Sir Isaac Newton Sir David Brewster. 1860 The Life of Sir Isaac Newton Sir David Brewster, 2020-09-28 Sir Isaac Newton was born at Woolsthorpe a hamlet in the parish of Colsterworth in Lincolnshire about six miles south of Grantham on the 25th December O S 1642 exactly one year after Galileo died and was baptized at Colsterworth on the 1st January 1642 3 His father Mr Isaac Newton died at the early age of thirty six a little more than a year after the death of his father Robert Newton and only a few months after his marriage to Harriet Ayscough daughter of James Ayscough of Market Overton in Rutlandshire This lady was accordingly left in a state of pregnancy and appears to have given a premature birth to her only and posthumous child The helpless infant thus ushered into the world was of such an extremely diminutive size 2 and seemed of so perishable a frame that two women who were sent to Lady Pakenham's at North Witham to bring some medicine to strengthen him did not expect to find him alive on their return Providence however had otherwise decreed and that frail tenement which seemed scarcely able to imprison its immortal mind was destined to enjoy a vigorous maturity and to survive even the average term of human existence The estate of Woolsthorpe in the manor house of which this remarkable birth took place had been more than a hundred years in the possession of the family who came originally from Newton in Lancashire but who had previous to the purchase of Woolsthorpe settled at Westby in the county of Lincoln The manor house of which we have given an engraving is situated in a beautiful little valley remarkable for its copious wells of pure spring water on the

west side of the river Witham which has its origin in the neighbourhood and commands an agreeable prospect to the east towards Colsterworth The manor of Woolsthorpe was worth only 30l per annum but Mrs Newton possessed another small estate at Sewstern 3 which raised the annual value of their property to about 80l and it is probable that the cultivation of the little farm on which she resided somewhat enlarged the limited income upon which she had to support herself and educate **Life of Sir Isaac Newton** Brewster David,1901 Sir Isaac Newton Deborah Hitzeroth, Sharon Leon, 1994 her child Examines the life of Sir Isaac Newton Memoirs of the Life, Writings, and Discoveries of Sir Isaac Newton David A View of Sir Isaac Newton's Philosophy Henry Pemberton, Richard Glover, 1728 A celebrated work in Brewster, 1965 the history of science and a monument of British book design First book to be printed in Caslon's Great Primer Roman Account of Sir Isaac Newton's Philosophical Discoveries Colin MacLaurin, Patrick Murdoch, 1748 A comprehensive treatment of Newton's works The Iconography of Sir Isaac Newton to 1800 Milo Keynes, 2005 Catalogue and iconography of the extraordinary wealth of images of Sir Isaac Newton both before and after his death Sir Isaac Newton 1642 1727 is rare among figures of the past for the number of authentic paintings engravings and images of him which survive He was painted by some nine different artists in the latter part of his life and after his death both portraits and sculptures continued to proliferate the amazing demand for representations of his image demonstrating his immense fame This iconography lavishly illustrated in both colour and black and white and involving the disciplines of History of Art and History of Science catalogues 231 icons in two sections and is thus an invaluable guide to the images Part I contains 122 portraits and Part II 109 sculptures about fifty of which were produced before his death the rest from then until 1800 Sir Isaac Newton Angela Royston, 2018-07-12
