The Babylonian Disputation Poems Enrique Jiménez, 2017-02-06 In *The Babylonian Disputation Poems* Enrique Jiménez studies a group of ancient Babylonian poems that feature discussions between animals and trees Using intertextual parallels and comparison with similar works in other literatures he espouses a new classification of the Babylonian disputation poems as parodies After examining neighboring traditions of literary disputation he argues that the Babylonian poems influenced them and that some may have been translated from Akkadian to Aramaic from Aramaic and Syriac to Arabic In addition *The Babylonian Disputation Poems* provides editions of several previously unpublished Babylonian disputations such as *Palm and Vine* and *the Series of the Spider* It also offers the first edition of the latest known Babylonian fable *The Story of the Poor Forlorn Wren* The present book is an exemplary model for editing and commenting upon ancient texts and almost every approach has been taken into account Markham J Geller *Journal for the Study of the Old Testament* 43 5 2019 **Major**
