the best in biblical scholarship from the leading scholars of our day who share a commitment to Scripture as divine revelation. This series emphasizes a thorough analysis of textual, linguistic, structural, and theological evidence. The result is judicious and balanced insight into the meanings of the text in the framework of biblical theology. These widely acclaimed commentaries serve as exceptional resources for the professional theologian and instructor, the seminary or university student, the working minister, and everyone concerned with building theological understanding from a solid base of biblical scholarship.

Overview of Commentary Organization Introduction covers issues pertaining to the whole book, including context, date, authorship, composition, interpretive issues, purpose, and theology. Each section of the commentary includes Pericope Bibliography, a helpful resource containing the most important works that pertain to each particular pericope. Translation: the author's own translation of the biblical text, reflecting the end result of exegesis and attending to Hebrew and Greek idiomatic usage of words, phrases, and tenses, yet in reasonably good English. Notes: the author's notes to the translation that address any textual variants, grammatical forms, syntactical constructions, basic meanings of words, and problems of translation. Form/Structure: Setting a discussion of redaction, genre, sources, and tradition as they concern the origin of the pericope, its canonical form, and its relation to the biblical and extra-biblical contexts in order to illuminate the structure and character of the pericope. Rhetorical or compositional features important to understanding the passage are also introduced here. Comment: verse-by-verse interpretation of the text and dialogue with other interpreters, engaging with current opinion and scholarly research. Explanation: brings together all the results of the discussion in previous sections to expose the meaning and intention of the text at several levels: 1. within the context of the book itself; 2. its meaning in the OT or NT; 3. its place in the entire canon; 4. theological relevance to broader OT or NT issues. General Bibliography: occurring at the end of each volume, this extensive bibliography contains all sources used anywhere in the commentary.

The Pre-occupation of Postcolonial Studies Fawzia Afzal-Khan, Kalpana Seshadri-Crooks, 2000. The Pre-Occupation of Postcolonial Studies contains essays by both leading figures and younger scholars engaged in the field of postcolonial studies. In this state of the field, reader editors Fawzia Afzal Khan and Kalpana Seshadri-Crooks have created a dynamic forum for contributors from a variety of theoretical and disciplinary vantage points to question both the limits and the limitations of postcolonial thought. Since it burst on the academic scene as the hot new disciplinary field during the final decade of the twentieth century, postcolonial studies has faced criticism from those who question its troubling trajectories, its sometimes suspect epistemological and pedagogical methods, and its relatively narrow focus. With diverse essays that emerge from such disciplines as South Asian, Latin American, Arab, and Jewish studies, this volume responds to skeptics and adherers alike, addressing not only the broad theoretical issues at stake within the field but also the position of the field itself within

the academy as well as its relationship to modern postmodern and Marxist discourses Contributors offer critiques on ahistorical and universalizing tendencies in postcolonial work and confront the need for scholars to attend to issues of class ideology and the effects of neocolonial practices Seeking to broaden the field s traditionally literary spectrum of methodologies these essayists take up large thematic issues to examine specific sites of colonial activities with all of their historical political and cultural significance Closing the volume is an insightful interview with Homi Bhabha in which he discusses postcolonial studies in the context of contemporary cultural politics and theory The Pre Occupation of Postcolonial Studies not only offers an overview of the discipline but also pushes and pulls at the edges of postcolonial studies offering a comprehensive view of the field s diversity of thought and envisioning clear pathways for its future Contributors Fawzia Afzal Khan Ali Behdad Homi Bhabha Daniel Boyarin Neil Larsen Saree Makdisi Joseph Massad Walter Mignolo Hamid Naficy Ngũgĩ Wa Thiong'o Timothy B Powell R Radhakrishnan Bruce Robbins Kalpana Seshadri Crooks Ella Shohat Rajeswari Sunder Rajan

Women's Rights and the Bible Richard H. Hiers, 2012-05-03 In this volume Richard Hiers challenges the popular

assumption that the Bible has a low view of women and that biblical law either ignores women or requires them to be subject and subservient to men He does so by identifying and carefully examining hundreds of biblical texts and allowing them to speak for themselves Among the findings that biblical tradition generally represents women positively as strong and independent persons that no text represents wives as subject to their husbands and that no biblical law requires such subjection that biblical laws provide many protections for women s rights and interests in several instances rights equal to those enjoyed by men The book focuses particularly on the Old Testament and Old Testament law and argues that Old Testament laws and their underlying values provide important resources for Christian ethics and social policy today
