Sonnets and Metrical Tales Mary Bryan,1815 Sonnets and Metrical Tales, 1815 Mary Bryan,2008 Metrical Tales, and Other Poems, Robert Southey,1811 **Lives of the Sonnet, 1787-1895** Marianne Van Remoortel,2016-05-06 In a series of representative case studies Marianne Van Remoortel traces the development of the sonnet during intense moments of change and stability continuity and conflict from the early Romantic period to the end of the nineteenth century Paying particular attention to the role of the popular press which served as a venue of innovation and as a site of recruitment for aspiring authors Van Remoortel redefines the scope of the genre including the ways in which its development is intricately related to issues of gender Among her subjects are the Della Cruscans and their primary critic William Gifford the young Samuel Taylor Coleridge and his circle Elizabeth Barrett Browning s Sonnets from the Portuguese George Meredith s Modern Love Dante Gabriel Rossetti s House of Life and Augusta Webster s Mother and Daughter As women became a force to be reckoned with among the reading public and the writing community the term sonnet often operated as a satirical label that was not restricted to poetry adhering to the strict formalities of the genre Van Remoortel s study in its attentiveness to the sonnet s feminization during the late eighteenth century offers important insights into the ways in which changing attitudes about gender and genre shaped critics interpretations of the reception histories of nineteenth century sonnet sequences **A Study of the Types of Literature** Mabel Irene Rich,1921 **Sensibility and Female Poetic Tradition, 1780-1860** Claire Knowles,2016-04-01 Arguing that the end of the eighteenth century witnessed the emergence of an important female poetic tradition Claire Knowles analyzes the poetry of several key women writing between 1780 and 1860 Knowles provides important context by demonstrating the influence of the Della Cruscans in exposing the constructed and performative nature of the trope of sensibility a revelation that was met with critical hostility by a literary culture that valorised sincerity This sets the stage for Charlotte Smith who pioneers an autobiographical approach to poetic production that places increased emphasis on the connection between the poet s physical body and her body of work Knowles shows the poets Susan Evance Letitia Elizabeth Landon and Elizabeth Barrett Browning advancing Smith s poetic strategy as they seek to elicit a powerful sympathetic response from readers by highlighting a connection between their actual suffering and the production of poetry From this environment a specific tradition in female poetry arises that is identifiable in the work of twentieth century writers like Sylvia Plath and continues to pertain today Alongside this new understanding of poetic tradition Knowles provides an innovative account of the central role of women writers to an emergent late eighteenth century mass literary culture and traces a crucial discursive shift that takes place in poetic production during this period She argues that the movement away from the passionate discourse of sensibility in the late eighteenth century to the more contained rhetoric of sentimentality in the early nineteenth had an enormous effect not only on female poets but also on British literary culture as a whole Sonnets (Complete Edition) John Keats,2015-04-26 This carefully crafted ebook Sonnets Complete

Nineteenth-Century English Labouring-Class Poets Vol 1 John Goodridge, 2020-04-13 Over 100 poets of labouring class origin were published in Britain in the 18th and 19th centuries Some were hugely popular and important in their day but few are available today This is a collection of some of those poems from the 19th century *The Critical Review, Or, Annals of Literature*, 1815 **Mary Robinson and the Genesis of Romanticism** Ashley Cross, 2016-08-19 First coming to prominence as an actress and scandalous celebrity Mary Robinson created an identity for herself as a Romantic poet and novelist in the 1790s Through a series of literary dialogues with established writers Robinson put herself at the center of Romantic literary culture as observer participant and creator Cross argues that Robinson's dialogues shaped the nature of Romantic writing both in content and form and influenced second generation Romantics These dialogues further establish the idea of Romantic discourse as essentially interactive and conversational not the work of original geniuses working in isolation and positions Robinson as a central player in its genesis *Eighteenth-Century Women Poets and Their Poetry* Paula R. Backscheider, 2005-12-31 Our sense of eighteenth century poetic territory is immeasurably expanded by this excellent historical and cultural study of UK women poets of the era Cynthia Wall *Studies in English Literature* This major work offers a broad view of the writing and careers of eighteenth century women poets casting new light on the ways in which poetry was read and enjoyed on changing poetic tastes in British culture and on the development of many major poetic genres and traditions Rather than presenting a chronological survey Paula R Backscheider explores the forms in which women wrote and the uses to which they put those forms Considering more than forty women in relation to canonical male writers of the same era she concludes that women wrote in all of the genres that men did but often adapted revised and even created new poetic kinds from traditional forms Backscheider demonstrates that knowledge of these women's poetry is necessary for an accurate and nuanced literary history Within chapters on important verse forms she sheds light on such topics as women's use of religious poetry to express ideas about patriarchy and rape the important role of friendship poetry
