Varieties of Southern Religious Experiences Samuel S. Hill,1988-01-01 Over the past twenty years there has been a dramatic increase in the number scope and quality of studies of religion in the American South This new work has been inspired and furthered by a growing acknowledgment of the importance of religious studies in general by the conviction that religion has always been basic to popular discourse in the South and by an awareness of the bearing of religion on the political economic and social spheres of life The authors represented in this collection are professors of religion sociology and history and are all part of a new wave

of scholars with fresh orientations toward the study of southern religion The essays cover a wide variety of subjects ranging chronologically from John Boles's work on white/black relations in antebellum biracial churches to William Martin's treatment of what he calls the electronic church of the 1980s the television audience congregations who follow evangelists such as Jerry Falwell and Pat Robertson The book encompasses a wide range of points of view socioeconomic classes and denominations In addition to C Eric Lincoln's essay on the history of the black church in America there are J Wayne Flynt's on the social gospel among southern Protestants from 1890 to 1920 David Edwin Harrell's on plain folk religion in the South from 1835 to 1920 Randall M Miller's on southern Catholicism and Ralph E Luker's on the ideas of the Episcopal theologian William Porcher DuBose Wade Clark Roof shows how the unchurched in both the South and the rest of the nation reflect the general modernizing process and Richard L Rubenstein treats the relationship between slavery and the Holocaust in William Styron's *Sophie's Choice* Clarence C Gen writes on the sectional splits in the major denominations prior to the Civil War and in his introduction and conclusion to the collection Samuel S Hill places these ten essays clearly in the context of our current understanding of southern religion and suggests the ways in which this work breaks new ground and points to important new interpretations These essays reflect the central assumption that there has been a distinct South for a long time and they also reveal and examine the genuine diversity of that region's religious history The book is effective and engaging in its

treatment of southern religion as an identifiable cultural entity as well as in its evocation of the rich diversity of the parts of that entity

On the Turn Bárbara Arizti, Silvia Martínez-Falquina, 2009-05-05 *On the Turn* The Ethics of Fiction in Contemporary Narrative in English is an attempt to listen to the various voices that participate in the current dialogue on the relationship between fiction and ethics The editors' introduction investigates the current state of affairs on the return to ethics in critical

and literary consideration and it opens up the way for the variety of approaches that follows. Participants include internationally recognized scholars like Andrew Gibson, Patricia Waugh, or Native American fiction writer and poet Gordon Henry, winner of the American Book Award in 1995. All in all, contributors cover a significant geographical diversity and their approaches also vary from general theory to particular examples from traditional interpretations to post-deconstruction ethics. Authors analyze texts both mainstream and marginal, colonial and postcolonial; they examine the ethics of race, gender, and sexuality; the ethics of self-positioning and orientation; the ethics of style; the ethics of reception; the ethics of mode and genre; the ethics of extreme situations of evil, disease, and fascism. In its search for a better understanding of the global nationalistic world of today, *On the Turn* therefore moves beyond the scope of literary criticism into issues of wider, more urgent relevance. What should I ought I may I must I do if anything on the basis of reading when I have read a literary work? What does reading a literary work authorize or even command me to do? Writing an essay about the work would be one response. *On the Turn* is a wonderfully diverse, learned, challenging, provocative, even sometimes controversial collection of essays on the ethical dimensions of literature. This book is testimony to the continued, lively interest in the ethical turn in literary studies. The authors are for the most part concerned with ethical theory and with ethically charged situations in postmodern novels in English as they shape readers' values and judgments. Poetry and non-print media are however also discussed. J. Hillis Miller, UCI Distinguished Research Professor of Comparative Literature and English, University of California at Irvine. *The Ethics of Fiction* is an important and exciting volume that explores with energy and rigour the connections between ethics and literature. Relating literature to philosophy, neurobiology, politics, religion, deconstruction, and psychoanalysis, the twenty-two contributors richly advance the ethical turn recently embraced by many critics. Works by authors such as Ian McEwan, A. S. Byatt, Charles Palliser, Hanif Kureishi, J. M. Coetzee, David Malouf, George Orwell, E. L. Doctorow, Flannery O'Connor, Toni Morrison, and Paul Auster are presented in a new light and complex topics such as territoriality, the nature of love, Islamophobia, and the politics of representation are tackled with imagination and intellectual integrity. This book is essential reading for anyone interested in the dialogue between ethics and literature. Avril Horner, Professor of English, Kingston University. **New York Magazine**, 1983-02-07. *New York Magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea. **Moral Strata**, John R. Welch, 2014-09-19. This volume recreates the received notion of reflective equilibrium. It reconfigures reflective equilibrium as both a cognitive ideal and a method for approximating this ideal. The ideal of reflective equilibrium is restructured using the concept of discursive strata, which are formed by sentences and differentiated by function. Sentences that perform the same kind of linguistic function constitute a

stratum The book shows how moral discourse can be analyzed into phenomenal instrumental and teleological strata and the ideal of reflective equilibrium reworked in these terms In addition the work strengthens the method of reflective equilibrium by harnessing the resources of decision theory and inductive logic It launches a comparative version of decision theory and employs this framework as a guide to moral theory choice It also recruits quantitative inductive logic to inform a standard of inductive cogency When used in tandem with comparative decision theory this standard can aid in the effort to turn the undesirable condition of reflective disequilibrium into reflective equilibrium
