Roth, 2005-10-28 Questions shape the Holocaust's legacy What happened to ethics during the Holocaust What should ethics be and what can it do after the Holocaust loom large among them Absent the overriding or moral sensibilities if not the collapse or collaboration of ethical traditions the Holocaust could not have happened Its devastation may have deepened conviction that there is a crucial difference between right and wrong its destruction may have renewed awareness about the importance of ethical standards and conduct But Birkenau the main killing center at Auschwitz also continues to cast a disturbing shadow over basic beliefs concerning right and wrong human rights and the hope that human beings will learn from the past This book explores those realities and the issues they contain It does so not to discourage but to encourage not to deepen darkness and despair but to face those realities honestly and in a way that can make post Holocaust ethics more credible and realistic The book's thesis is that nothing human natural or divine guarantees respect for the ethical values and commitments that are most needed in contemporary human existence but nothing is more important than our commitment to defend them for they remain as fundamental as they are fragile as precious as they are endangered Reciprocity and Its Practice in Social Research Chowdhury, Jahid Siraz, Wahab, Haris Abd, Saad, Rashid Mohd, Reza, Hasan, Ahmad, Mokbul Morshed, 2022-05-27 Reciprocity has been critical in the philosophy and social sciences of the 20th century Over the last seven decades several countries settled by European powers have become autonomous and returning has become a challenge Consequently writing on reciprocity as a central theme requires time and implies a deep dedication to the community There is a need to explore the factors and policies behind the study agendas and secret philosophies before and after European involvement Reciprocity and Its Practice in Social Research aims to open the

controlled consciousness of self as a human being and then as a scholar to the community via the methodological lens It analyzes reciprocity from the Greek tradition to Medeval Arab to the early colonial or pre colonial period It specifically addresses the benefit of social research on the community and seeks ways to revolutionize and improve current research and academic processes Covering topics such as the philosophy of science indigenous science and Western metaphysics this book is an essential resource for anthropologists philosophers sociologists university faculty and administration students of higher education librarians researchers and academicians

**truth** Francis Etheredge,2016-01-14 We begin philosophising cf Fides et Ratio 3 30 without realising that we are philosophers but in time we discover our own identity as philosophers and at the same time come to critically examine it What therefore is the interrelationship between reason and sense indeed is not sense subtly sensitive through reason Questions then arise out of our life our observations and from what we learn But it is not only about being ready well trained or perfect in our reasoning rather it is about taking up the impulse and the task of seeking the truth On the one hand then we can question everything and end up with nothing but on the other hand there are many points of departure experience maxims and the wisdom which comes through many advisers Prov 15 22 Ideas abound about what might be the case but a philosophical investigation is also about coming into the presence of being Many people have gone before and go with us and will come after us and therefore this book marks a contribution to understanding both the activity of philosophising and the conversation about what is cf Fides et Ratio 44 We discover that to exist is to search through the apparent contradictions in our experience and to find eventually that there are both good foundations and buildings begun and also great unanswered or unsatisfactorily answered questions There is an ongoing work too to establish the mystery of the person implicated in human action Therefore there is both the inveterate call of the subject to be investigated and at the same time the ever present need of the grace of perseverance to pursue it This book is also about the slow discovery of the beautiful but inadequate nature of natural truth The wonder of natural truth is that it exists like the literal sense a kind of foundational reasoning however just as Revelation perfects natural truth so the human person is a living expression of the whole literal and spiritual sense of created being Hence the title of this volume Faithful Reason makes explicit a witness to what is beyond itself *Across the Mediterranean* Tammy Greene,Editor: Cari Hernandez, *A Place for T* Robert H. Lengel,2023-01-17

Dr Lengel offers a thought provoking twist on Aesop's Hare Tortoise fable reframing it as a Human Race pitting our Hare brained heads against our Tortoise inspired hearts As we run faster and faster in our Hare like pursuits of wealth power and status we are leaving no place for the slow and steady Tortoise to speak for our humanity As a result the author poses the possibility we are creating a world with our intellects and technology that we can't relate to emotionally and spiritually We might be outrunning our humanity and setting the stage for the Hare to win this human race by default Our inability to engage each other in civil and respectful conversations the hate and violence infecting our culture and leadership failures in organizations might be evidence this sinister end is fast approaching This book is a hard hitting and at times poetic invitation to step back from our busy lives sit with the author on his front porch and question our lives and work It is an inspirational reminder of Mahatma Gandhi's warning that there is more to life than simply increasing its speed In a conversational format Dr Lengel guides us down a hopeful path forward a path illuminated by what he calls divergent thinking His words are a siren call to wake up and realize we can't afford Hare brained progress at the cost of our souls We need A Place for T in our lives now to account for the unaccountable while we still have time
