Ali, 2025-01-22 This book examines the causes and consequences of the dramatic shift in Japanese national security perspectives and mutually exclusive policies toward China and the USA It sheds new light on the changing trajectories of triadic dynamics shaping U S China Japan strategic insecurity their historical roots its implications for trans Pacific peace and stability and their potential influence on emerging regional and systemic security architectures Against the backdrop of U S proclaimed great power competition with China as the defining feature and organizing principle of the U S led coalition's strategic and geopolitical responses to China's national rejuvenation with primacy's displacement anxiety triggering a systemic transitional fluidity the book examines the origins and outcomes of Sino Japanese insecurity its polarizing effects on U S China and U S Japan relations and the wider systemic resonances and dissonances as the post Cold War unipolar systemic structure gives way to an uncertain ambiguous and imprecise successor regime Finally historical lessons drawn from primary documents are used to illuminate the prospects for triangular relations in shaping the Asia Pacific security ecology over the medium term Muslims, Trust and Multiculturalism Amina Yaqin, Peter Morey, Asmaa Soliman, 2018-05-17

This book critically engages with the contemporary breakdown of trust between Muslim and non Muslim communities in the West It argues that a crisis of trust currently hampers intercultural relations and obstructs full participation in citizenship

and civil society for those who fall prey to the suspicions of the state and their fellow citizens This crisis of trust presents a challenge to the plurality of modern societies where religious identities have come to demand an equal recognition and political accommodation which is not consistently awarded across Europe especially in nations which view themselves as secular or where Islamic culture is seen as alien This volume of interdisciplinary essays by leading scholars explores the theme of trust and multiculturalism across a range of perspectives employing insights from political science sociology literature ethnography and cultural studies It provides an urgent critical response to the challenging contexts of multiculturalism for Muslims in both Europe and the USA Taken together the contributions suggest that the institutionalisation of multiculturalism as a state led vehicle for tolerance and integration requires a certain type of trustworthy performance from minority groups particularly Muslims Even when this performance is forthcoming existing discourses of integration and underlying patterns of mistrust can contribute to Muslim alienation on the one hand and rising Islamophobia on the other
