the harm done can easily be identified for example the quick detection of the life threatening birth defects caused by the drug thalidomide when taken during pregnancy or the flaws in the braking system of a Japanese car However when the exported product is ideas and beliefs and ways of life the indirect and sneaky damage is often much more malevolent and long lasting because it attacks the worldview of the recipients and it shakes their cherished beliefs Because of its technological supremacy Islamic and developing countries got used to wholeheartedly accepting any information coming from the West if it is under the tag of science By presenting itself under this prestigious mantra of science students in Muslim countries swallow the kernel of psychology with its nutshell the baby with its filthy water The danger of this approach is greatly augmented by the shortcomings of our educational systems that discourages critical thinking and encourages the submissive acceptance of the words of the teacher and that of printed material *Unspeakable Secrets of the Aro Valley* Danyl McLauchlan,2016-09-01 A sleepy bohemian neighborhood becomes the unexpected setting for an adventure story as a lively cast of characters that include a brilliant but troubled young writer a voluptuous healer and a shadowy cult and its sinister leader take on an ancient legend of the occult From the mysterious and the horrific to the comedic and the erotic *Unspeakable Secrets of the Aro Valley* is a dark and hilarious odyssey through Wellington s underbelly that weaves through trail of riddles a struggle for ultimate power and a final unspeakable secret *Mick-Rick Essays on the Sacred and Profane* Michael Maasdorp,Richard Arthur DeRemee,2007-11-19 This second Mick Rick book begins by posing ten questions to which the authors independently respond with short essays This format contrasts with the debates of book one *The Mick Rick Debates Controversies in Contemporary Christianity* The ten Questions touch on fundamental issues facing today's Christians such as suffering life after death religious cosmology moral principles and others The intention of the questions is not to provide pat answers but rather to stimulate reflection on the nature and content of Christian Faith in the context of the modern world The second part of the book consists of two essays In *Before and After the Big Bang* Rick argues it is possible to live in both the worlds of materialism as represented by science and the immaterial world of religion Religion or the sacred provides meaning for life science or the profane provides for our material needs Mick holds the idea of traffic between the natural and supernatural destroys the foundations of modern knowledge In his essay *On Our Own But not Alone* he suggests that to attain maturity we must also gain autonomy neither of which survives in a world invaded by the supernatural The book concludes with a debate on the nature of Constructs that are key mental tools used in religious and philosophical discourse Similar to the first book the interlocutors Michael Maasdorp Mick and Richard Arthur DeRemee Rick conducted their conversations over the Internet on the Radical Faith web site http://homepages.which.net/radical_faith/index.htm

God's Illusion Machine Mayesvara dasa,2013-12 In the tidal wave of intellectual argument that followed the 2006 release of Richard Dawkins s *God Delusion* book a fierce debate has raged between atheism and religion over the existence of God leaving the world s scientists and laymen largely undecided in their opinion *God s Illusion Machine* presents a

fascinating alternative to a debate that has largely been argued within the framework of Christian versus science concepts Drawing upon the world's oldest body of knowledge the Vedas the author describes the massive illusion to which we are all subjected as we mistakenly believe ourselves to be physical creations of the material world In God's Illusion Machine the material world is gradually exposed as the ultimate virtual reality machine for wayward souls who prefer a self-centred rather than a God-centred existence In contrast to Richard Dawkins's assertion that the religious are suffering a delusion for believing in God the author argues that both the atheists and the religious are under the spell of God's deluding energy called M y which acts in reciprocation with a soul's desire to be in illusion within the physical realm By applying the profound spiritual insights of Vedic knowledge along with a healthy dose of common sense and good humour God's Illusion Machine is an enthralling exposé of the deceptive nature of the material world and the false claims of materialists regarding the nature of life and love It is a triumph of spirituality over both atheistic materialism and religious dogmatism God's Illusion Machine is a work of major importance realigning Western religion philosophy and science with eternal spiritual truths an enlightening read for both the atheist and the religious bringing spiritual certainty and true love to bewildered souls in troubled times For atheists who like a good argument for the religious who are stuck for a reply to Richard Dawkins for fans of fantasy and sci fi where forces of light and illusion contend in battle and for you the reader whatever your disposition this book will forever change your outlook on life and its meaning As the rising sun disperses the darkness of night so in the presence of Krishna The Absolute Truth m y illusion cannot stand
