Poole's thoughtful memoir of life's lessons which he shares with endearing charm and good natured heart. The book is a thoughtful journey and an engaging reminiscence. Lessons from the Porch will allow the reader to consider questions such as: Have you wondered how you arrived at your current stop along your journey? Have you ever asked the question: What am I supposed to be learning from this experience? How can I leave this world a bit better than it was when I found it? Although written about his own experience battling depression, the book is meant for anyone embarking on a journey to know themselves and cultivate new friendships. We all have places from which we learn life's lessons. For some it may be sitting beside a meandering stream. For this author, the place to which he returned to understand his journey was the porch that surrounded his house as he grew up. Metaphorically, Poole's porch represents how he either has or has not accepted changes in his life. The dilemma about how and when to leave his porch goes back to his early boyhood when his mom would always say: Eddie, don't get too close to the edge of the porch because you might fall off. *Individuation for Adult Replacement Children*

Kristina E. Schellinski, 2019-10-02. Kristina E. Schellinski uncovers the hidden trauma of the replacement child born into an atmosphere of grief to substitute for a lost sibling or other person and helps adult replacement children discover the uniqueness of their self. Schellinski combines Jungian theory with research from over 20 years of clinical practice to demonstrate how adult replacement children who suffer from physical and psychological distress can rediscover the essence of their being in the transformative process of individuation. Theoretical yet practical, the book discusses core concepts of analytical psychology, psychoanalysis, and attachment theory, and detailed case studies address grief, guilt, identity formation, relational challenges, and shadow aspects. Schellinski explores how Jung's birth after three dead children impacted his search for self and his theory, and discloses her own personal experience. On treatment and prevention, she argues that by recognising elements of the condition, clinicians can facilitate acceptance, compassion, and healing and help reduce transgenerational transmission. This book is an indispensable tool for clinicians, analytical psychologists, psychodynamic psychotherapists, and those in other medical professions and will be of great interest to academics and readers interested in Jungian studies and existential questions. It offers adult replacement children and their families hope for a psychological rebirth.

The Hunger Games meets The Twilight Saga in this new dystopian romance boxset. Two worlds. One glass wall. No turning back. The human race has been divided. The chosen few live in the safety of the domes, watching through their glass walls as those left on the outside suffer and die. But desperation has brought invention. New drugs have the ability to alter humans, giving them the strength to roam the poisoned night unafraid, but survival comes at a terrible price. Seventeen-year-old Nola Kent has spent her life in the domes, training to protect her little piece of the world within the glass. The mission of the domes is to preserve the human race, not to help the sick and starving. When the fate of an outsider child falls into her hands, Nola dares to venture beyond the security of her home, diving into a world of darkness and vampires. Life within the glass didn't prepare her for the realities of suffering or the depth of forbidden love. When blood washes over the domes, Nola must choose between her home and her heart.
