First published in 1999, Routledge is an imprint of Taylor & Francis, an informal company. Memories Of The Future Being Memoirs Of The Years 1915-1972, written In The Year Of Grace 1988 Ronald Arbuthnott Knox, 2024-03-19. Ronald Knox's *Memories of the Future Being Memoirs of the Years 1915-1972*, written in the Year of Grace 1988, is a sly imaginative memoir in disguise that playfully reimagines history through the eyes of a narrator writing from the distant perspective of 1988, long before that year had actually arrived. Best known as a theologian, satirist, and mystery writer, Knox constructs a fictional future history layered with irony, wit, and sharp commentary on the politics, culture, and social changes of the twentieth century. Blending speculative fiction with memoir, he positions his narrator as both participant and observer of a wildly altered timeline, allowing him to comment on real events like the two World Wars and shifting moral landscapes while bending them with a satirical twist that feels uncannily relevant today. As we navigate our own flood of competing narratives and predictions about the future, Knox's book reminds us of the fragility and absurdity of forecasting, poking fun at our attempts to predict and control the flow of history. It is especially meaningful for readers who enjoy thought-provoking satire, fans of alternate history, and anyone curious about how past generations imagined the future and what that reveals about their own time. This quirky, clever work will resonate most with those who appreciate dry humor, intellectual play, and a timeless sense of irony about human progress. *The Boundaries of Realism in World Literature* Kornelije Kvas, 2019-11-19. This book is a valuable theoretical and critical contribution to the study of realism in world literature. Proceeding from the mimetic theories of the era of antiquity and proceeding to explore formalist, structuralist, theories of possible worlds, and theories of simulation, Kvas points to the fictionality of mimetic realism in literature and art as the creation of new fictional aesthetic worlds, even when, as in the case of realism, there is a programmatic and practical inclination of such art and literature toward the world of the historical and the social, the real in the original sense of the word. This study will enable readers to confront in a new and dependable manner the issues of literary realism and its digressions into magical realism. **Moments of Magical Realism in US Ethnic Literatures** Lyn Di Iorio Sandín, R.
