The Fear Of Death:

Mortals Rachel Menzies, Ross Menzies, 2021-09-14 Human society is shaped by many things but underlying them all is one fundamental force our fear of death This is the ground breaking theory explored in Mortals Spoiler alert if you read this book you will die But as well as being fascinating this book can also help you die a better death and live a better life JULIAN MORROW comedian ABC presenter member of The Chaser team A death defying book from two leaders in the field PROFESSOR DAVID VEALE King s College London The ground breaking book that uncovers how our fear of death is the hidden driver of most of humankind s endeavours The human mind can grapple with the future visualising and calculating solutions to complex problems giving us tremendous advantages over other species throughout our evolution However this capability comes with a curse By five to ten years of age all humans know where they are heading to the grave In Mortals Rachel Menzies and Ross Menzies both acclaimed psychologists whose life s work has focused on death anxiety examine all the major human responses to death across history From the development of religious systems denying the finality of death to immortality projects involving enduring art architecture and literature some of the consequences of our fear of death have been glorious while others have been destructive leading to global conflicts and genocide Looking forward Mortals hypothesises that worse could be to come our unconscious dread of death has led to rampant consumerism and overpopulation driving the global warming and pandemic crises that now threaten our very existence In a terrible irony Homo sapiens may ultimately be destroyed by our knowledge of our own mortality A fascinating tour of our species attempts across millennia to come to terms with mortality Mortals offers a stunning glimpse into what our fear of death means for our future A must read PROFESSOR THOMAS HEIDENREICH Esslingen University [The Fear Of Death](#) Nawaz Hajiani, 2021-12-10 Four planets destroyed Three galactic empires Two unlikely allies One obvious enemy Three superpowers collide at the TriStar Border It is ten years since the Kerradite War ended The Manadine Empire reeling from its first defeat in more than 3000 years has apparently unleashed a terrifying new weapon Four planets are destroyed in a matter of minutes and the balance of power has suddenly shifted Old hatreds have always died harder than the people that created them but the Manadine Empire itself is in turmoil The emperor lies dead slain by an ancient curse and the heir to the Purple Throne is plagued by dreams that foreshadow death and destruction should he become emperor For Prince Tusmak the choice is as simple as it is difficult save his empire or save himself As the galaxy heads for another catastrophic war the TriStar Border becomes the playground of spies and assassins seeking profit and warriors seeking revenge A blend of science fiction and fantasy The Fear Of Death is a character driven tale of politics betrayal revenge and sacrifice where there is only one truth if you want to live don t be afraid to die **Be Not Afraid** Johann Christoph Arnold, 2002 In Be Not Afraid Arnold addresses fears that every person faces fear of death and loss illness aging fear of vulnerability and fear of suffering A pastor who has worked with the dying for three decades Arnold knows that each of us must meet death in our own unique way Yet

The Fear of Death Simon Sobo,1999 The Fear of Death argues that the fear of death is instinctual evolutionarily brought with us as part of our animal equipment and central to our psychology It is fundamentally related to our sense of guilt our vulnerability our need to appease the gods It is an important element in romantic love It drives the nurturing protective struggle of parents to have their seed carry on It is at the core of the creative process Survival is our first priority The book addresses many cultural issues as well For example counter establishment sentiments brought a destabilizing of mans conventional efforts to deal with mortality through a link to God In the end however the motivation became quite similar A health religion was created in which cholesterol carcinogens lack of exercise and so forth became deadly vices The virtuous now stay in shape and watch their diets As men once worried about the state of their souls the focus of angst has become the body However William Bennett has also noted that with the aging of the youth culture social trends may have come full circle Many are beginning to hedge their bets as they reach fifty returning to conventional prayer and religion They are getting off their exercise bicycles and down on their knees
