

Debate on Feudalism

Monarch

Feudalism came to an end in 15th century as the military force changed their powers from controlling the labour to noble protection of their country and the higher level could not show authority on their lands.

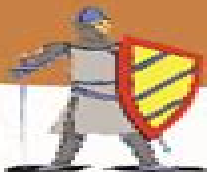

Lords

Lords, also called the Lord of the Manor, were members of the nobility, known as the highest class in medieval society. It was the lord's job to manage and defend his land and the people who worked it.

Knights

Knights were usually vassals of more powerful lords. A vassal was the second-in-command to their feudal lord. They had to live their life following a stringent code of behaviour called chivalry.

Peasants

Since most people in the Middle Ages were peasants, peasants formed the majority of the feudal system. Though they didn't have a relationship like vassals and lords, they were necessary in the entire feudal structure by helping work out the land.
