The First Amendment And The Future Of American Democracy

David P. Gushee

The First Amendment And The Future Of American Democracy:

The First Amendment and the Future of American Democracy Walter Berns, 1985 A sharp in depth analysis of the First Amendment offering a unique interpretation of our basic freedoms and liberties *The Future of American Democracy* Glen Browder, 2002 Former congressman Browder is worried that the current trends of American democracy might result in a Union of Socialist States of America or worse He suggests that we re suffering from a cumulative distemper in which we may be tiring of America s historic Great Experiment He offers vague prescriptions about embarking on a National Democratic Renaissance and rediscovering the essence of our American nation Annotation copyrighted by Book News Inc Portland OR

Leo Strauss, The Straussians, and the Study of the American Regime Kenneth L. Deutsch, John A. Murley, 1999-09-28 Responding to volatile criticisms frequently leveled at Leo Strauss and those he influenced the prominent contributors to this volume demonstrate the profound influence that Strauss and his students have exerted on American liberal democracy and contemporary political thought By stressing the enduring vitality of classic books and by articulating the theoretical and practical flaws of relativism and historicism the contributors argue that Strauss and the Straussians have identified fundamental crises of modernity and liberal democracy This book emphasizes the broad range of Strauss s influence from literary criticism to constitutional thought and it denies the existence of a monolithic Straussian political orthodoxy Both critics and supporters of Strauss thought are included All political theorists interested in Strauss s extraordinary impact on political thought will want to read this book *The Future of American Democratic Politics* Nancy J. Hirschmann, Wilson McWilliams, Gordon Schochet, Jane Junn, Nelson Polsby, Jennifer Hochschild, John Hansen, Daniel Tichenor, Milton Heumann, Elizabeth Garrett, William Crotty, Alan Rosenthal, Gerald Pomper, 2003-07-21 Even before the terrorist attacks of September 11 2001 political scientists were assessing changes and continuities in the principles and practices of American democracy Recent events including the passage of the U S Patriot Act and the current debates about civil liberties versus homeland security intensify the need to examine the long term viability of democracy In this book fifteen major scholars assess the current state of American democracy offering a spirited dialogue on the future of democratic politics Contributors focus on three principles fundamental to democracy equality liberty and participation They examine these principles within the context of the basic institutions of American democracy Congress and the state legislatures the president political parties interest groups and the Supreme Court They raise questions regarding the checks and balances among formal governmental institutions with the contributors sharing concern over the fading power of the legislature and the increased power of the executive and judiciary as well as the role of political parties and interest groups Topics discussed include the incomplete mobilization of the electorate the debates over campaign finance reform and term limits the Supreme Court s activist role in the Florida recount the dangers of teledemocracy and state initiatives the separation of political participation from residential location identity politics the clash of negative and positive liberty and the prospects for

personal freedom in an era of terrorist threats This timely collection covers the issues relevant to the future of American democracy today not only for lawmakers students and historians but for any concerned citizen *The Future of the First Amendment* Kenneth Dautrich, David A. Yalof, Mark Hugo Lopez, 2008-05-30 Findings from the high profile John S and James L Knight Foundation sponsored surveys of over 100 000 high school students in 2004 and 2006 provided a wake up call to those interested in preserving the future of free expression rights in America These studies documented the current lack of appreciation for free expression rights among the nation s high school students and thus raised serious questions about the vitality of those rights as this generation reaches adulthood In *The Future of the First Amendment* the scholars who conducted the Knight studies identify a number of important connections and relationships that education reformers should account for as they seek to raise the status of the First Amendment among the nation s youth This book documents and explores the ramifications of First Amendment education and student media activities both traditional and digital on student support for free expression rights Linking these curricular and extra curricular activities to the next generation s tolerance for free expression rights it provides guidance to educators and policy makers on methods of improving the next generation s appreciation for these rights which are so central to the health of American democracy **The Future of Faith in**

American Politics David P. Gushee, 2008 David Gushee argues convincingly that there is in U S politics an evangelical center of voters who do not identify with the politics and religion of either the right or the left Although evangelical Christians are portrayed by the media as conservatives Gushee claims that the evangelical movement includes nearly even numbers of voters on the right in the center and on the left of the political spectrum He provides portraits of the major figures in each of the three camps outlines the core convictions of the adherents and analyzes the strengths and weaknesses of each group s positions He suggests that the evangelical center is poised for growth this book could be its manifesto

The Politics of the American Civil Liberties Union William A. Donohue, 2017-10-23 This is a critical analysis of the history of the American Civil Liberties Union and at the same time the history of American liberalism in the twentieth century It represents the first published account of the ACLU s record Other works on the organization either dealt only with specific issues or have been simply journalistic accounts Donohue provides the first systematic analysis by a social scientist This book is directed at those interested in the history of American liberalism and no less the history of American conservatism for ideological struggle within the United States touches directly on civil libertarian concerns The work is especially significant for American constitutional lawyers political scientists and for those concerned with serious ideas in American life Supporters as well as critics of the ACLU will be attracted to this work for different reasons It is unquestionably the most serious work now available and is likely to remain the touchstone for any such work for many years to come Political Tolerance and American Democracy John L. Sullivan, James Piereson, George E. Marcus, 1993-05-15 This path breaking book reconceptualizes our understanding of political tolerance as well as of its foundations Previous studies the authors contend

overemphasized the role of education in explaining the presence of tolerance while giving insufficient weight to personality and ideological factors With an innovative methodology for measuring levels of tolerance more accurately the authors are able to explain why particular groups are targeted and why tolerance is an inherently political concept Far from abating the degree of intolerance in America today is probably as great as it ever was it is the targets of intolerance that have changed

Muslim American Politics and the Future of US Democracy Edward E Curtis IV, 2020-07-28 Reveals the important role of Muslim Americans in American politics Since the 1950s and especially in the post 9 11 era Muslim Americans have played outsized roles in US politics sometimes as political dissidents and sometimes as political insiders However more than at any other moment in history Muslim Americans now stand at the symbolic center of US politics and public life This volume argues that the future of American democracy depends on whether Muslim Americans are able to exercise their political rights as citizens and whether they can find acceptance as social equals Many believe that over time Muslim Americans will be accepted just as other religious minorities have been Yet Curtis contends that this belief overlooks the real barrier to their full citizenship which is political rather than cultural The dominant form of American liberalism has prevented the political assimilation of American Muslims even while leaders from Eisenhower to Obama have offered rhetorical support for their acceptance Drawing on examples ranging from the political rhetoric of the Nation of Islam in the 1950s and 1960s to the symbolic use of fallen Muslim American service members in the 2016 election cycle Curtis shows that the efforts of Muslim Americans to be regarded as full Americans have been going on for decades yet never with full success Curtis argues that policies laws and political rhetoric concerning Muslim Americans are quintessential American political questions Debates about freedom of speech and religion equal justice under law and the war on terrorism have placed Muslim Americans at the center of public discourse How Americans decide to view and make policy regarding Muslim Americans will play a large role in what kind of country the United States will become and whether it will be a country that chooses freedom over fear and justice over prejudice

American Democracy in Peril: Eight Challenges to America's Future, 7th Edition William E. Hudson, 2012-07-13 American Democracy in Peril encapsulates the tumultuous state of American politics By introducing the history of democratic theory in terms of four models of democracy Hudson provides readers with a set of criteria against which to evaluate the challenges discussed later This provocative book offers a structured yet critical examination of the American political system designed to stimulate students to consider how the facts they learn about American politics relate to democratic ideals This new edition incorporates the Trump Presidency and the polarization that has accompanied his leadership Provided by Publisher

Enjoying the Melody of Phrase: An Emotional Symphony within **The First Amendment And The Future Of American Democracy**

In a global used by screens and the ceaseless chatter of instant interaction, the melodic splendor and emotional symphony created by the published term frequently disappear in to the back ground, eclipsed by the constant sound and disruptions that permeate our lives. However, situated within the pages of **The First Amendment And The Future Of American Democracy** a marvelous literary value overflowing with organic feelings, lies an immersive symphony waiting to be embraced. Crafted by an elegant composer of language, this captivating masterpiece conducts viewers on a psychological journey, well unraveling the hidden melodies and profound affect resonating within each carefully crafted phrase. Within the depths of the touching analysis, we can discover the book is central harmonies, analyze its enthralling writing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
