The Federalist Papers Charles River Editors, 2025-06-27 It has been frequently remarked that it seems to have been reserved to the people of this country by their conduct and example to decide the important question whether societies of men are really capable or not of establishing good government from reflection and choice or whether they are forever destined to depend for their political constitutions on accident and force If there be any truth in the remark the crisis at which we are arrived may with propriety be regarded as the era in which that decision is to be made Alexander Hamilton Federalist No 1 In 1787 delegates from the recently independent 13 colonies met in Philadelphia to try to forge a new stronger Constitution That summer the representatives ironed out a document that had pluses and minuses for all involved a point noted by Ben Franklin in explaining why he assented to it at the end of the process For when you assemble a number of men to have the advantage of their joint wisdom you inevitably assemble with those men all their prejudices their passions their errors of opinion their local interests and their selfish views From such an assembly can a perfect production be expected It therefore astonishes me Sir to find this system approaching so near to perfection as it does and I think it will astonish our enemies who are waiting with confidence to hear that our councils are confounded like those of the Builders of Babel and that our States are on the point of separation only to meet hereafter for the purpose of cutting one another's throats Thus I consent Sir to this Constitution because I expect no better and because I am not sure that it is not the best However even after the final document was ready it still had

to be ratified by the colonies which required the delegates to attempt to argue for or against it Nobody did this better than John Jay Alexander Hamilton and James Madison in the Federalist Papers which are now among the most famous and influential political writings in the nation's history The Federalist Papers were written as a series of newspaper editorials that appeared in the American colonies during 1787 and 1789 urging the ratification of the new Constitution 85 of these essays consist of what is today considered The Federalist Papers with 77 of them published in The Independent Journal and The New York Packet between October 1787 and August 1788 A compilation of these and eight others called The Federalist or The New Constitution was published in two volumes in 1788 by J and A McLean The Federalist Papers sought to rally support for the Constitution's approval when those three anonymously wrote them and given how different Hamilton and Madison proved to be ideologically they demonstrate how men of vastly different political ideologies came to accept the same Constitution 225 years later the Federalist Papers are still just as relevant and influential as ever In addition to being cited dozens of times a year by the Supreme Court in interpreting the Constitution and rendering decisions the writings also allow readers and scholars today to get into the mindset of the Founding Fathers including the Father of the Constitution himself The Founding Documents The Federalist Papers comprehensively covers the history behind the Federalist Papers as well as some of their most famous quotes and key points Along with pictures of important people places and events you will learn about the Federalist Papers like you never have before in no time at all
