The Film Industries:

The Movie Business A. William Bluem, Jason E. Squire, 1972 The American Film Industry Tino Balio, 1985-03-04 Upon its original publication in 1976 *The American Film Industry* was welcomed by film students, scholars and fans as the first systematic and unified history of the American movie industry. Now this indispensable anthology has been expanded and revised to include a fresh introductory overview by editor Tino Balio and ten new chapters that explore such topics as the growth of exhibition as big business, the mode of production for feature films, the star as market strategy and the changing economics and structure of contemporary entertainment companies. The result is a unique collection of essays more comprehensive and current than ever that reveals how the American movie industry really worked in a century of constant change from kinetoscopes and the coming of sound to the star system, 1950s blacklisting and today's corporate empires.

The Film Industry Davidson Boughey, 1921 **The New Historical Dictionary of the American Film Industry** Anthony Slide, 2014-02-25 *The New Historical Dictionary of the American Film Industry* is a completely revised and updated edition of Anthony Slide's *The American Film Industry* originally published in 1986 and recipient of the American Library Association's Outstanding Reference Book award for that year. More than 200 new entries have been added and all original entries have been updated; each entry is followed by a short bibliography. As its predecessor, the new dictionary is unique in that it is not a who's who of the industry but rather a what's what: a dictionary of producing and releasing companies, technical innovations, industry terms, studios, genres, color systems, institutions and organizations etc. More than 800 entries include everything from Academy of Motion Pictures Arts and Sciences to Zoom Lens, from Astoria Studios to Zoetrope. Outstanding Reference Source, American Library Association.

The Movie business A. William Bluem, Jason E. Squire, 1972 **The Film Industry in Brazil** Randal Johnson, 2010-11-23 Looking back through the prism of the severe economic crisis for filmmaking in the 1980s, *The Film Industry in Brazil* explores the unusual relationship between the state-supported industry which often produced politically radical films and the authoritarian regime that had held sway for twenty years. To ground his analysis, Johnson covers the early years of the film industry, 1898-1930, attempts at industrialization during the 1930s and 1940s, film industry congresses and government film boards, 1950-1966, the National Film Institute, 1966-1975, and the expansion of the state's role from 1969 through 1980. Well conceived, carefully researched and documented, Johnson's study fills a major gap in film studies by tracing the development of this industry in Brazil, focusing specifically on its relationship to the state.

Hollywood in the Information Age Janet Wasko, 2013-05-02 This is a major new assessment of the American movie industry in the 1990s, focusing on the development of new communication technologies such as cable and home video and examining their impact on the production and distribution of motion pictures.
