Sir Thomas Roe And The Mughal Empire:

Sir Thomas Roe and the Mughal Empire Colin Paul Mitchell, 2000 In September 1615 Sir Thomas Roe stepped off the Lion at the Indian port of Surat and began his four year appointment as England's first ambassador to the court of the Great Mughal. Roe's perceptions and observations of Mughal India cornerstones to early modern Indian historiography are examined here from the perspective of seventeenth century Jacobean values and means of expression *The Embassy of Sir Thomas Roe to India, 1615-19* Sir Thomas Roe, 1990 as narrated in his journal and correspondence Dy **The Princes of the Mughal Empire, 1504-1719** Munis D. Faruqi, 2012-08-27 For more than 200 years the Mughal emperors ruled supreme in northern India. How was it possible that a Muslim ethnically Turkish Persian speaking dynasty established itself in the Indian subcontinent to become one of the largest and most dynamic empires on earth? In this rigorous new interpretation of the period Munis D. Faruqi explores Mughal state formation through the pivotal role of the Mughal princes. In a challenge to previous scholarship the book suggests that far from undermining the foundations of empire the court intrigues and political backbiting that were features of Mughal political life and that frequently resulted in rebellions and wars of succession actually helped spread, deepen and mobilise Mughal power through an empire wide network of friends and allies. This engaging book which uses a vast archive of European and Persian sources takes the reader from the founding of the empire under Babur to its decline in the 1700s. **The Mughal Padshah** Jorge Flores, 2015-11-16 In *The Mughal Padshah* Jorge Flores offers both a lucid English translation and the Portuguese original of a previously unknown account of the Mughal Emperor Jahangir, r. 1605-1627. Probably penned by the Jesuit priest Jeronimo Xavier in 1610-11, the *Treatise of the Court and Household of Jahangir Padshah* King of the Mughals reads quite differently than the usual missionary report. Surviving in four different versions, this text reveals intriguing insights on Jahangir and his family, the Mughal court and its political rituals as well as the imperial elite and its military and economic strength. A comprehensive introduction situates the *Treatise* in the disputed landscape of European accounts on Mughal India as well as illuminates the actual conditions of production and readership of such a text between South Asia and the Iberian Peninsula. Religion and the Medieval and Early Modern Global Marketplace Scott Oldenburg, Kristin M. S. Bezio, 2021-10-28 *Religion and the Medieval and Early Modern Global Marketplace* brings together scholars from a variety of disciplines to examine the intersection, conflict and confluence of religion and the market before 1700. Each chapter analyzes the unique interplay of faith and economy in a different locale: Syria, Ethiopia, France, Iceland, India, Peru and beyond. In ten case studies, specialists of archaeology, art history, social and economic history, religious studies and critical theory address issues of secularization, tolerance, colonialism and race with a fresh focus. They chart the tensions between religious and economic thought in specific locales or texts, the complex ways that religion and economy interacted with one another and the way in which matters of faith, economy and race converge in religious images of the pre and early modern periods. Considering the intersection of faith and economy, the

volume questions the legacy of early modern economic and spiritual exceptionalism and the ways in which prosperity still entangles itself with righteousness The interdisciplinary nature means that this volume is the perfect resource for advanced undergraduates postgraduates and scholars working across multiple areas including history literature politics art history global studies philosophy and gender studies in the medieval and early modern periods

Early English Travellers in India Ram Chandra Prasad, 1980 These studies in Elizabethan and Jacobean travel literature informed by a scholarly and sympathetic but very properly unsentimental approach to ten significant English travellers in India between 1579 and 1630 throw considerable light on the India of the great Mughals and reveal the many strands which are interwoven into the ties that have bound and still in many ways bind the great and ancient civilisations of the Indian sub continent with the smaller and shorter civilisations of the British Isles Professor Ram Chandra Prasad combines the skills and resources of the historian the literary critic and the student of comparative literature and languages to demonstrate what we may learn of these two countries from the often idiosyncratic but always rich prose of Englishmen abroad in the ages of Queen Elizabeth I and King James I Professor Prasad has chosen for study Thomas Stephens Ralph Fitch John Mildenhall William Hawkins Thomas Roe Thomas Coryat William Finch Nicholas Withington Edward Terry and Henry Lord He makes just enough reference to non English travellers such as Manucci to keep his readers in the general picture of western exploration while at the same time he concentrates on his chosen field The author's practice of quoting long extracts in the original language has a twofold advantage it makes his narrative more vivid and it facilitates the determination of what one traveller owes to another This new completely revised edition of Early English Travellers in India will continue to fill a long felt gap in Indo Anglian literature and it will be greeted as an important achievement by the scholar and the general reader alike
