The Oxford Handbook of the Phenomenology of Music Cultures Harris M. Berger, Friedlind Riedel, David VanderHamm, 2024 This handbook is currently in development with individual articles publishing online in advance of print publication At this time we cannot add information about unpublished articles in this handbook however the table of contents will continue to grow as additional articles pass through the review process and are added to the site Please note that the online publication date for this handbook is the date that the first article in the title was published online City Stephen B. Scharper, Ingrid Leman-Stefanovic, 2012-01-01 Urban and natural environments are often viewed as entirely separate entities human settlements as the domain of architects and planners and natural areas as untouched wilderness This dichotomy continues to drive decision making in subtle ways but with the mounting pressures of global climate change and declining biodiversity it is no longer viable New technologies are promising to provide renewable energy sources and greener designs but real change will require a deeper shift in values attitudes and perceptions A timely and important collection The Natural City explores how to integrate the natural environment into healthy urban centres from philosophical religious socio political and planning perspectives Recognizing the need to better link the humanities with public policy The Natural City offers unique insights for the development of an alternative vision of urban life **Innovation in Music:** Adjusting Perspectives Jan-Olof Gullö, Russ Hepworth-Sawyer, Dave Hook, Mark Marrington, Justin Paterson, Rob Toulson, 2024-12-30 Innovation in Music Adjusting Perspectives brings together cutting edge research on new innovations in the field of music production technology performance and business With contributions from a host of well respected researchers and practitioners this volume provides crucial coverage on the relationship between innovation and rebellion Including chapters on generative AI gender equality live music quantisation and composition this book is recommended reading for music industry researchers working in a range of fields as well as professionals interested in industry innovations

**Shakespeare and the Future of Theory** François-Xavier Gleyzon, Johann Gregory, 2017-10-02 Shakespeare and the Future of Theory convenes internationally renowned Shakespeare scholars and scholars of the Early Modern period and presents discusses and evaluates the most recent research and information concerning the future of theory in relation to Shakespeare's corpus Original in its aim and scope the book argues for the critical importance of thinking Shakespeare now and provides extensive reflections and profound insights into the dialogues between Shakespeare and Theory Contributions explore Shakespeare through the lens of design theory queer theory psychoanalysis Derrida and Foucault amongst others

and offer an innovative interdisciplinary analysis of Shakespeare's work This book was originally published as two special issues of English Studies Architectures of Sound Michael Fowler, 2017-10-23 Architects are used to designing visually In order to expand their basic design tools this book explores the interactions between sound space hearing and architecture To this end the author uses contemporary and historic buildings and projects but also fictional philosophical and theoretical approaches the idea is not only to define sound as a source but also as an instrument of architectural space By introducing a metatheory of critical hearing designers are able to acoustically test their projects and contribute to their design with auditive input already at the design stage Invisible Reconstruction Lucia Patrizio Gunning, Paola Rizzi, 2022-12-06 What does it really mean to reconstruct a city after a natural biological or man made disaster Is the repair and reinstatement of buildings and infrastructure sufficient without the mending of social fabric The authors of this volume believe that the true measure of success should be societal After all a city without people is no city at all Invisible Reconstruction takes the view that effective disaster mitigation and recovery require interdisciplinary tactics Historian Lucia Patrizio Gunning and urbanist Paola Rizzi expand beyond the confines of individual disciplines or disaster studies to bring together academics and practitioners from a wide variety of disciplines comparing strategies and outcomes in different scenarios and cultures from South America Europe and Asia From cultural heritage and public space to education and participation contributors reflect on the interconnection of people culture and environment and on constructive approaches to strengthening the intangible ties to increase resilience and reduce vulnerability By bringing practical examples of how communities and individuals have reacted to or prepared for disaster the publication proposes a shift in public policy to ensure that essential physical reinforcement and rebuilding are matched by attention to societal needs Invisible Reconstruction is essential reading for policymakers academics and practitioners working to reduce the impact of natural biological and man made disaster or to improve post disaster recovery New Art Examiner ,1999 The independent voice of the visual arts **No Wave** Marc Masters, 2007 Flashing through New York in the late 1970s No Wave was the ultimate anti movement Its bands consisted of untrained artists looking to explode rock and disappear before the smoke cleared The primary perpetrators all drew on primitivism performance art and the avant garde But they were best known for short songs and even shorter life spans No Wave traces the history of this unique movement from early pioneers like Suicide to Richard Hell to hidden treasures like Red Transistor and 8 Eyed Spy to descendents like ESG and Sonic Youth No Wave is a comprehensive guide to a movement whose influence still resonates today Sensing Self, Sensing Space Susanna Douglas, 2005 Sound Worlds from the Body to the City Ariane Wilson, 2019-03-13 This volume reveals the extent to which aural perception influences our spatial awareness Spanning various fields and practices from psychology to geography and from zoology to urban planning it covers a range of environments in which sounds contribute to forming our sense of space and place The contributions gathered here lead from the mother's womb through the habitats of insects and owls to the resonating bodies of buildings and the city to

artistic endeavours that aim to consciously reveal the spatiality of sound In this progression the book demonstrates the profoundly constitutive role of hearing and listening at all stages of our biological and social development as well as the epistemological phenomenological and emotional importance of sound in relation to our construction of space As such it will appeal not only to architects town planners and artists but also to the growing community of scientists and scholars intrigued by sonic issues Differing from both quantitative acoustics and sound design its approach opens new perspectives on the sonic dimension and aural understanding of our environment by tracing analogies between a diversity of spaces formed when sound interacts with listening as a mode of attention Geographies of the Ear Tania Gentic, 2025-08-15 Tania Gentic examines the soundscape of post Franco Barcelona to point out the difficulties of considering the contemporary city as either the product of a monolingual national identity or a lived space easily circumscribed by geographical categories Bibliography of Modern Art Museum of Modern Art (New York, N.Y.). Library, 2000 The Bloomsbury Handbook of Sound Art Sanne Krogh Groth, Holger Schulze, 2020-02-20 The Bloomsbury Handbook of Sound Art explores and delineates what Sound Art is in the 21st century Sound artworks today embody the contemporary and transcultural trends towards the post apocalyptic a wide sensorial spectrum of sonic imaginaries as well as the decolonization and deinstitutionalization around the making of sound Within the areas of musicology art history and later sound studies Sound Art has evolved at least since the 1980s into a turbulant field of academic critique and aesthetic analysis Summoning artists researchers curators and critics this volume takes note of and reflects the most recent shifts and drifts in Sound Art rooted in sonic histories and implying future trajectories The Builder's Dictionary: Or, Gentleman and Architect's Companion ,1734 Asante Ntahera Trumpets in Ghana Joseph S.Kaminski, 2016-12-05 Based on the author's fieldwork in Ghana with the Asante and Denkyira ntahera trumpeters this book draws on interviews field recordings oral traditions written accounts archaeological evidence transcriptions and linguistic analyses to situate the Asante trumpet tradition in historical culture There are seven ivory trumpet ensembles in residence at the Asante Manhyia Palace in Kumase and ivory trumpets are blown at every Akan court The Asante trumpets which are made from elephant tusks are symbols of Asante strength and have an important role in Asante cosmology Surrogate speech is performed via lipped tones through a tusk in praise of the Asante royal ancestors and the living Asante king This book contains transcriptions and analyses of surrogate speech texts and their accompanying ensemble songs When several ensembles play simultaneously as a representation of power they make staggered entrances beginning separate songs in order This results in a simultaneous performance of separate songs This phenomenon which Kaminski has termed sound barrage is an ancient aesthetic and is performed to protect the kingdom and the ancestors It is both spiritual and acoustical This sound barrage is believed to act in the metaphysical world dispelling evil spirits from court rituals ancestor venerations and funerals for there is a spirit in the sound The Cambridge Companion to Women Composers Matthew Head, Susan Wollenberg, 2024-05-30 Exploring a diverse distinguished repertoire and transcending the

rhetoric of neglect this book transforms understanding of women composers Artificial Intelligence Marco Antonio Aceves-Fernandez, 2018-06-27 Artificial intelligence AI is taking an increasingly important role in our society From cars smartphones airplanes consumer applications and even medical equipment the impact of AI is changing the world around us The ability of machines to demonstrate advanced cognitive skills in taking decisions learn and perceive the environment predict certain behavior and process written or spoken languages among other skills makes this discipline of paramount importance in today s world Although AI is changing the world for the better in many applications it also comes with its challenges This book encompasses many applications as well as new techniques challenges and opportunities in this fascinating area Spaces Speak, Are You Listening? Barry Blesser, Linda-Ruth Salter, 2009-09-18 How we experience space by listening the concepts of aural architecture with examples ranging from Gothic cathedrals to surround sound home theater We experience spaces not only by seeing but also by listening We can navigate a room in the dark and hear the emptiness of a house without furniture Our experience of music in a concert hall depends on whether we sit in the front row or under the balcony The unique acoustics of religious spaces acquire symbolic meaning Social relationships are strongly influenced by the way that space changes sound In Spaces Speak Are You Listening Barry Blesser and Linda Ruth Salter examine auditory spatial awareness experiencing space by attentive listening Every environment has an aural architecture The audible attributes of physical space have always contributed to the fabric of human culture as demonstrated by prehistoric multimedia cave paintings classical Greek open air theaters Gothic cathedrals acoustic geography of French villages modern music reproduction and virtual spaces in home theaters Auditory spatial awareness is a prism that reveals a culture's attitudes toward hearing and space Some listeners can learn to see objects with their ears but even without training we can all hear spatial geometry such as an open door or low ceiling Integrating contributions from a wide range of disciplines including architecture music acoustics evolution anthropology cognitive psychology audio engineering and many others Spaces Speak Are You Listening establishes the concepts and language of aural architecture These concepts provide an interdisciplinary guide for anyone interested in gaining a better understanding of how space enhances our well being Aural architecture is not the exclusive domain of specialists Accidentally or intentionally we all function as aural architects
