Social History of Timbuktu Elias N. Saad, 1983-07-14 Originally published in 1983 this book deals with the precolonial history of the Islamic West African city of Timbuktu The book traces the fortunes of this fabled city from its origins in the twelfth century and more especially from around 1400 onwards to the French conquest in the late nineteenth century The study rests upon a comprehensive utilisation of the Timbuktu sources including the well known chronicles or tarikhs of Timbuktu The author focuses on the role of scholars and in so doing he provides a fresh study of a learned community in sub Saharan Africa Additionally the study shows that the scholars occupied a position of leadership and authority in the social structure of the city Hence in providing fuller understanding of the role of scholars and their status as notables the work makes it possible to understand the enigma which has surrounded this extraordinary city throughout its history It contributes an important perspective for historians of Africa the Middle East and Islam **Tradition, Culture and Development in Africa** Ambe J.
