Anthropology and the Politics of Representation Gabriela Vargas-Cetina,2013-02 This book examines the inherently problematic nature of representation and description of living people specifically in ethnography and more generally in anthropological work as a whole In this book the editor brings together a group of international scholars who through their fieldwork experiences reflect on the epistemological political and personal implications of their own work To do so they focus on such topics as ethnography anthropologists engagement in identity politics representational practices the contexts of anthropological research and work and the effects of personal choices regarding self involvement in local causes that may extend beyond purely ethnographic goals *General Technical Report PSW.* ,2005 **Malicroix** Henri Bosco,2020-04-07 Fans of the style of William Faulkner will want to read Henri Bosco four time nominee for the Nobel Prize in Literature Available in English for the first time Malicroix tells the story of a recluse living in the French countryside unraveling how he came to a life of solitude Henri Bosco like his contemporary Jean Giono is one of the regional masters of modern French literature a writer who dwells above all on the grandeur beauty and ferocious unpredictability of the natural world Malicroix

set in the early nineteenth century is widely considered to be Bosco's greatest book. Here he invests a classic coming of age story with a wild mythic glamour. A nice young man of stolidly unimaginative good bourgeois stock is surprised to inherit a house on an island in the Rhône in the famously desolate and untamed region of the Camargue. The terms of his great uncle's will are even more surprising: the young man must take up solitary residence in the house for a full three months before he will be permitted to take possession of it. With only a taciturn shepherd and his dog for occasional company, he finds himself surrounded by the huge and turbulent river always threatening to flood the island and surrounding countryside and the wind battering at his all too fragile house shrieking from on high. And there is another condition of the will: a challenging task he must perform even as others scheme to make his house their own. Only under threat can the young man come to terms with both his strange inheritance and himself.

Magic Chants for Beginners Harry Eilenstein, 2021-05-31 Spell chants have a very long tradition already in the Egyptian Book of the Dead; some texts are praised as spells that can be sung well. Moreover, in many traditions, magicians are not called speakers but singers. It is obviously worthwhile to take a closer look at the nature of singing in contrast to the spoken word in magic. Singing and speaking are the expression of different chakras and they also have a different effect. Therefore, there are situations in which a magic chant is the appropriate thing to do and situations in which a spoken spell is the right thing to do or going into silence. These reflections are complemented by about 90 examples of spell chants from various cultures.
