Songs and Song Writers Henry T. Finck,2015-07-23 Excerpt from *Songs and Song Writers* Many music lovers have doubtless asked themselves the question why it should have remained for Schubert less than a century ago to practically create the Lied or lyric art song In the first two chapters of this volume I have endeavored to answer this question The great composers and singers were so busy with mammoth oratorios operas symphonies and sonatas that the short song was esteemed hardly worthy of their serious attention just as in England a story used to be thought of no consequence unless it filled several

volumes It is now conceded that a story of three pages may give as much evidence of literary genius as a three volume novel while Schubert Franz and others have proved the same principle in regard to music and at present every composer writes a dozen or two if not a hundred or two lyric songs The singers too have become more rational About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Revised 2013. About the Book: Achieving hit writer status has always been a formidable goal for any songwriter. Never more so, however, than in the 21st century. Catching the ear of the monumentally distracted, fragmented listener has never been more difficult. Getting their attention, inviting them in to your song, and keeping them there for long enough for your song to become their song requires more than being just a good songwriter. Murphy's Laws of Songwriting: The Book arms the songwriter for success by demystifying the process and opening the door to serious professional songwriting. Hall of fame songwriter Paul Williams said in his review of the book: If there was a hit songwriters' secret handshake, Da Murphy would probably have included it. About the Author: Ralph Murphy, songwriter, has been successful for five decades. Consistently charting songs in an ever-changing musical environment makes him a member of that very small group of professionals who make a living doing what they love to do. Add to that the platinum records as a producer, the widely acclaimed Murphy's Laws of Songwriting, articles used as part of curriculum at colleges, universities, and by songwriter organizations, his success as the publisher and co-owner of the extremely successful Picalic Group of Companies, and you see a pattern of achievement based on more than luck. **Songwriting: Apply Proven Methods, Ideas and Exercises to Kickstart or Upgrade Your**
