**Classic American Popular Song** David Jenness, Donald Velsey, 2014-02-04 Classic American Popular Song: The Second Half Century 1950-2000 addresses the question: What happened to American popular song after 1950? There are numerous books available on the so-called Golden Age of popular song, but none that follow the development of popular song styles in the second half of the 20th century. While 1950 is seen as the end of an era, the tap of popular song creation hardly ran dry after that date. Many of the classic songwriters continued to work through the following decades. Porter was active until 1958, Rodgers until the later 1970s, Arlen until 1976. Some of the greatest lyricists of the classic era continued to do outstanding and successful work. Johnny Mercer and Dorothy Fields, for example, continued to produce lyrics through the early 70s. These works could be explained as simply the Golden Age's last stand, a refusal of major figures to give in to a new reality. But then how can we explain the outstanding careers of Frank Loesser, Cy Coleman, Jerry Herman, Jerry Bock, and Sheldon Harnick, Fred Kander and John Ebb, Jule Styne, Alan Jay Lerner, and Frederick Loewe, and several other major figures?

Where did Stephen Sondheim come from For anyone interested in the development of American popular song and its survival this book will make fascinating reading **Popular Music: Popular music analysis** Simon Frith,2004 Popular music studies is a rapidly expanding field with changing emphases and agenda This is a multi volume resource for this area of study

**Music of the First World War** Don Tyler, 2016-03-21 This book discusses WWI era music in a historical context, explaining music's importance at home and abroad during WWI, as well as examining what music was being sung, played, and danced to during the years prior to America's involvement in the Great War. Why was music so important to soldiers abroad during World War I? What role did music, ranging from classical to theater music, rags, and early jazz, play on the American homefront? *Music of the First World War* explores the tremendous importance of music during the years of the Great War when communication technologies were extremely limited and music often took the place of connecting directly with loved ones or reminiscing via recorded images. The book's chapters cover music's contribution to the war effort, the variety of war-related songs, popular hits, and top recording artists of the war years; the music of Broadway shows and other theater productions; and important composers and lyricists. The author also explores the development of the fledgling recording industry at this time.

This book covers all 39 Hollywood musicals nominated for Best Picture. It explains why each film was nominated and why the winners won, points out the influences that guided the productions, and discusses these films' influences on succeeding films.
