This is a guide to contemporary debates and theatre practices at a time when gender paradigms are both in flux and at the centre of explosive political battlegrounds. The confluence of gender and theatre has long created intense debate about representation, identification, social conditioning, desire, embodiment and lived experience. As this handbook demonstrates, from the conventions of early modern English, Chinese, Japanese and Hispanic theatres to the subversion of racialized binaries of masculinity and femininity in recent North American, African, Asian, Caribbean and European productions, the matter of gender has consistently taken centre stage. This handbook examines how critical discourses on gender intersect with key debates in the field of theatre studies as a lens to illuminate the practices of gender and theatre as well as the societies they inform and represent across space and time. Of interest to scholars in the interrelated areas of feminist gender and sexuality studies, theatre and performance studies, cultural studies and globalization and diasporic studies, this book demonstrates how researchers are currently addressing theatre about gender issues and gendered theatre practices. While synthesizing and summarizing foundational and evolving debates from a contemporary perspective, this collection offers interpretations and analyses that do not simply look back at existing scholarship but open up new possibilities and understandings. Featuring essential research tools including a survey of keywords and an annotated play list, this is an indispensable scholarly handbook for anyone working in theatre and performance.

**Music News**, 1929      **Popular Music and Parenting** Shelley

Brunt, Liz Giuffre, 2022-10-18. *Popular Music and Parenting* explores the culture of popular music as a shared experience between parents, carers and young children. Offering a critical overview of this topic from a popular music studies perspective, this book expands our assumptions about how young audiences and caregivers engage with music together. Using both case studies and wider analysis, the authors examine music listening and participation between children and parents in both domestic and public settings ranging across children's music, media, digital streaming, live concerts, formal and informal popular music education, music merchandising and song lyrics. Placing young children's musical engagement in the context of the music industry, changing media technologies and popular culture, *Popular Music and Parenting* paints a richly interdisciplinary picture of the intersection of popular music with the parent-child relationship.

Through considerations of changes in technology and the mediascape that have shaped the experience of popular music (vinyl, iPods, social media), the role of social difference and how it shapes sociomusical encounters, queer spaces, gendered and racialised spaces, as well as the construction and representations of place, musical tourism, city branding, urban mythologies, this is an up-to-the-moment
