Songs Of The Irish:

Songs of Irish Rebellion Georges Denis Zimmermann,2002 This classic collection is a discussion of songs that gave utterance to the opinions and feelings of an important part of the Irish people in political social and religious feelings First published in 1966 this is a new edition with corrections and additional notes The songs which were within the reach of all strands of society were not only an expression of the singers and listeners feelings or opinions but also a form of propaganda And when printers invested in them with the production of broadsheets and booklets they became an industry Thus as the author states in his introduction they are a curious melting pot for different kinds of literature or sub literature *Irish*
