Teton Sioux Music (Classic Reprint) Frances Densmore, 2015-07-21 Excerpt from Teton Sioux Music The analytical study of Indian music which the writer commenced among the Chippewa has been continued among the Sioux Those familiar with the two books already published will find no material change in method of treatment in the present volume We have but passed from the land of pine forests and lakes to the broad plains where the buffalo came down from the north in the autumn and where war parties swept to and fro The present volume contains tabulated analyses of 600 songs comprising the Chippewa songs previously published as well as the songs of the Teton Sioux By means of these tables the songs of the two tribes can be compared in melodic and rhythmic peculiarities In Bulletin 53 the Chippewa songs were grouped according to their use and descriptive as well as tabulated analyses disclosed resemblances between certain groups of songs having the same mental concept In the present memoir the comparison is based not on the use but on the age of the songs this series being divided for analysis into two groups one comprising songs believed to be more than 50 years old and the other comprising songs of more recent origin This analysis shows that the restrictions of civilization have had a definite effect on the structure of Sioux melodies In presenting Teton Sioux music the writer desires to acknowledge her appreciation of the
