Crandall, Susan M. Crandall, 2015-07-25 Archaeological digs have turned up sculptures in Inuit lands that are thousands of years old but Inuit art as it is known today only dates back to the beginning of the 1900s Early art was traditionally produced from soft materials such as whalebone and tools and objects were also fashioned out of stone bone and ivory because these materials were readily available The Inuit people are known not just for their sculpture but for their graphic art as well the most prominent forms being lithographs and stonecuts
