Songwriters Speak Conversations About Creating Music:

Songwriters Speak Debbie Kruger, 2023-05 Debbie Kruger speaks at length with 45 of the most celebrated Australian New Zealand songwriters of the twentieth century whose work has left an indelible cultural imprint on our cultural landscape. In candid face to face interviews the songwriters discuss their successful careers, share their thoughts on tapping into their creative sources and tell the stories behind many of their classic songs. The Business of Entertainment Robert C. Sickels, 2008-11-30 We love to be entertained. And today's technology makes that easier than ever. Listen to tunes while working out. No problem. Watch a movie on your cell phone. Can do. Get 450 channels of digital entertainment bounced off a satellite and into your vehicle even while traveling through empty wastelands. Simple. But behind these experiences is a complex industry dominated by a handful of global media conglomerates whose executives exert considerable influence over the artists and projects they bankroll, the processes by which products are developed and the methods they use to promote and distribute entertainment. As this set shows, the industries in which commerce, art and technology intersect are among the most fascinating in all of business. Entertainment is a high stakes industry where stars are born and flame out in the blink of an eye where multimillion dollar deals are made on a daily basis and where cultural mores for better or worse are shaped and reinforced. The Business of Entertainment lifts the curtain to show the machinery and sleight of hand behind the films, TV shows, music and radio programs we can't live without. The Business of Entertainment comprises three volumes covering movies, popular music and television. But it's not all about stars and glitter; it's as much about the nuts and bolts of daily life in the industry including the challenges of digitizing content, globalization, promoting stars and shows, protecting intellectual property, developing talent, employing the latest technology and getting projects done on time and within budget. Challenges don't end there. There's also advertising and product placement, the power of reviews and reviewers, the cancerous spread of piracy, the battles between cable and satellite operators and the threat to both from telephone companies, the backlash to promoting gangsta lifestyles and more. Each chapter is written by an authority in the field, from noted scholars to entertainment industry professionals to critics to screenwriters to lawyers. The result is a fascinating mosaic with each chapter a gem that provides insight into the industry that hands down generates more conversations on a daily basis than any other.

Friday on Our Minds Michelle Arrow, 2009 Lively and insightful Friday on our Minds shows that far from being trivial or merely entertaining, popular culture reveals a great deal about Australia's history and about social and cultural change. Book Jacket
