Sorcerers Apprentice The Life Of Franz Von Papen:

The Sorcerer's Apprentice Richard W. Rolfs, 1996 This is the first critical study of a man who helped Hitler into power and continued to serve him until the very end of the Third Reich Other biographies of Franz von Papen have failed to portray a complete account of his life This book goes beyond giving a mere profile of Papen s personality it is a critical examination of his life and the effects that his errors in judgement had upon his world The author studies how von Papen s exaggerated sense of duty to the Fatherland blinded him to the consequences of his service to the Nazis and make it impossible for him to ever fully break his association with the Hitler regime The Sorcerer s Apprentice full of pictures and descriptive detail will appeal to scholars in the field of modern German history It will also serve as a valuable reference source in any college courses on Nazi Germany and should have a place in every college and university library In addition anyone interested in German history from 1944 to 1945 will want a copy of this unique and probing study Contents List of Pictures Author s Preface The Early Years The Kaiser s Faithful Servant From Epaulets to Top Hat The Cabinet of Barons Pinstripe Diplomacy Towards the New State the New State in Action The New State is Challenged The Cardinal vs the Baron Under the Swastika Revolution After Power The Austrian Question The Anschluss Mission to Ankara The Final Years Bibliography Index

nature of complicity showing us that the distinctions between individual and collective responsibility and even between pathological evil and rational choice are never easily drawn

Alliance of Enemies Agostino von Hassell, Sigrid MacRae, 2013-12-10 Alliance of Enemies tells the thrilling history of the secret World War II relationship between Nazi Germany's espionage service the Abwehr and the American OSS predecessor of the CIA The actors in this great as yet untold story were often at odds with their respective governments Working in the face of competing ideologies and at great personal risk these unorthodox collaborators struggled to bring about an early peace By mining secret World War II files that were only recently declassified as well as personal interviews diaries and previously unpublished accounts to unearth some of history's surprises Agostino von Hassell and Sigrid MacRae shed new light on Franklin Roosevelt's surprising stance toward Hitler before the U S entered the war and on the relationship of American business to the Third Reich They offer vivid details on the German resistance's desperate efforts to

at first avert war and then to make common cause with enemy representatives to end it And their work details the scope and depth of German resistance and its many plots to eliminate Hitler and why they failed New names and incredible wartime plots reveal the titanic power struggles that took place in Istanbul and Lisbon cities crawling with spies Intense clandestine communications and spy rings come clear as do the self serving neutrality of Switzerland and Portugal and the shocking postwar scramble for German spies scientists and more all to aid in the fight against a new enemy communism Alliance of Enemies fills a huge void in our knowledge of the hidden layered warfare and the attempts for peace of World War II It will fascinate and excite historians spy and policy enthusiasts and anyone concerned with the uses of intelligence in trying times Nowhere has such a complete and provocative history of the wars behind World War II been told until now **Germany at War** David T. Zabecki, 2014-10-28 Written by experts for use by nonexperts this monumental work probes Germany's Genius for War and the unmistakable pattern of tactical and operational innovation and excellence evident throughout the nation's military history Despite having the best military forces in the world some of the most advanced weapons available and unparalleled tactical proficiency Germany still lost both World Wars This landmark four volume encyclopedia explores how and why that happened at the same time examining Germany as a military power from the start of the Thirty Years War in 1618 to the present day Coverage includes the Federal Republic of Germany its predecessor states and the kingdoms and principalities that combined to form Imperial Germany in 1871 The Seven Years War is discussed as are the Napoleonic Wars the Wars of German Unification including the Franco Prussian War World War I World War II and the Cold War In all more than 1 000 entries illuminate battles organizations leaders armies weapons and other aspects of war and military life The most comprehensive overview of German military history ever to appear in English this work will enable students and others interested in military history to better understand the sociopolitical history of Germany the complex role conflict has played in the nation throughout its history and why Germany continues to be an important player on the European continent *The Third Reich* Martin Kitchen, 2014-01-14 The twelve years of the Third Reich casts a dark shadow over history Fierce debates still rage over many of the hows whys and wherefores of this perplexing period Leading expert on German history Martin Kitchen provides a concise accessible and provocative account of Nazi Germany It takes into account the political social economic and cultural ramifications and sets it within the context of the times while pointing out those areas that still defy our understanding This lively account addresses major issues such as the reasons for Hitler's extraordinary popularity his hold over the German people even when all seemed lost the role of ideology the cooption of the elites and the descent into war for race and space culminating in the horrors of the holocaust *A Brief History of The Third Reich* Martyn Whittock, 2011-06-23 The abuse of power genocide the destruction of total war unimaginable cruelty and the suffering of millions were all central features of Hitler's Nazi regime Yet the Nazis were also highly successful in manipulating images and information they mobilized and engaged vast numbers of people caught the imagination of the young and appeared

remarkably modern to many contemporary observers Was the Third Reich a throwback to a mythical past or a brutally modern and technologically advanced state Was Hitler a strong dictator who achieved his clear goals or was his chaotic style of government symptomatic of a weak dictator unable to control the complex and contradictory forces that he had unleashed Was the Third Reich ruled by terror or largely supported by a compliant German population Was the genocide against the Jews a peculiarly German phenomenon or a uniquely German expression of a terrible wider trend Whittock explores these and other key questions interrogating the views of different historians and drawing on a wealth of primary sources from state sponsored art to diaries letters and memoirs of both perpetrators and victims to provide an overview of the complex evidence History should aim to put us firmly in touch with the lives of people living in the past and the issues they faced Whittock never loses sight of the individuals whose lives were caught up in these extraordinary events while also giving a lucid overview of the bigger picture

The Crusader of the 20th Century Roberto De Mattei, 1998 Heinrich Bruning and the Dissolution of the Weimar Republic William L. Patch, Jr, William L. Patch, 2006-03-30 Scholars have long debated whether Heinrich Br ning head of the German government from 1930 to 1932 was the last democratic chancellor of the Weimar Republic or the trailblazer of the Nazi dictatorship His memoirs published in 1970 damaged his reputation badly by terming the restoration of monarchy the crux of his policies This 1998 book is the first scholarly biography of Bruning in any language and offers a systematic analysis of the economic social foreign and military policies of his cabinet as it sought to cope with the Great Depression With the help of newly available sources it clarifies the peculiar distortions in the memoirs showing that Chancellor Br ning intended to restore parliamentary democracy intact when the economic crisis passed He was curbing the Nazi menace successfully when President Hindenburg reactionary landowners and army generals eager for massive rearmament made the disastrously misguided decision to topple him
