Soul Murder Case A Confession Of The Victim:

The Soul Murder Case Robert Deane Pharr,1975-01-01 **The Lever of Riches** Joel Mokyr,1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation s creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential *The Concise Oxford Companion to African American Literature* William L. The Apocalypse of Paul (Visio Pauli) in Sahidic Coptic Lautaro Roig Lanzillotta,Jacques van der Vliet,2022-12-28 The apocryphal Apocalypse of Paul Visio Pauli plunges us right into the heart of early Christian conceptions of heaven and hell Its vivid eyewitness account of otherworldly punishment and reward was translated into many different languages and inspired numerous later authors among whom Dante This book offers a re edition and English translation of the ancient Coptic version An exhaustive commentary makes the text accessible and situates it in the time and place where it was written fourth century Egypt As this new study shows the Coptic version is by far the best available witness of the original Apocalypse of Paul

The Shriek of Silence David Patterson,2014-07-15 In the Holocaust novel silence is always a character and the word is always its subject matter So writes David Patterson in this profound and original study of more than thirty important writers Contrary to existing views he argues the Holocaust novel is not an attempt to depict an unimaginable reality or an ineffable horror It is

rather an endeavor to fetch the word from silence and restore it to meaning to resurrect the human soul to regenerate the relation between the self and God the self and other the self and itself This book is less a critical study in the usual sense than an impassioned meditation on the deeper sources of the Holocaust novel Among the authors examined are Elie Wiesel Arnost Lustig Aharon Appelfeld Katzetnik 135633 Primo Levi Yehuda Amichai Piotr Rawicz A Anatoli Saul Bellow I B Singer Anna Langfus Rachmil Bryks and Ilse Aichinger The Shriek of Silence is a first in several respects the first to examine the Holocaust novels in their original languages the first to articulate a theoretical basis for its approach and the first phenomenological investigation one that attempts to penetrate the process of creation for these novelists Organized along conceptual lines the book examines the word in exile the themes of death of the father and the child transformations of the self and the implications of the reader Its philosophical foundations are Rosenzweig Buber Neher and Levinas Its critical approach is shaped by Bakhtin The novelists of the Holocaust in witnessing through their words regain their voices and in so doing are reborn By probing the depths of their struggle Patterson s study draws us too toward a higher understanding perhaps even our own rebirth

Good for the Souls Nadieszda Kizenko, 2021-04-22 From the moment that Tsars as well as hierarchs realized that having their subjects go to confession could make them better citizens as well as better Christians the sacrament of penance in the Russian empire became a political tool a devotional exercise a means of education and a literary genre It defined who was Orthodox and who was other First encouraging Russian subjects to participate in confession to improve them and to integrate them into a reforming Church and State authorities then turned to confession to integrate converts of other nationalities But the sacrament was not only something that state and religious authorities sought to impose on an unwilling populace Confession could provide an opportunity for carefully crafted complaint What state and church authorities initially imagined as a way of controlling an unruly population could be used by the same population as a way of telling their own story or simply getting time off to attend to their inner lives Good for the Souls brings Russia into the rich scholarly and popular literature on confession penance discipline and gender in the modern world and in doing so opens a key window onto church state and society It draws on state laws Synodal decrees archives manuscript repositories clerical guides sermons saints lives works of literature and visual depictions of the sacrament in those books and on church iconostases Russia Ukraine and Orthodox Christianity emerge both as part of the European transatlantic religious continuum and in crucial ways distinct from it

The Homiletic Review, 1894 Framing the Rape Victim Carine M. Mardorossian, 2014-05-13 Winner of the 2016 Nonfiction Category from The Authors Zone In recent years members of legal law enforcement media and academic circles have portrayed rape as a special kind of crime distinct from other forms of violence In Framing the Rape

Victim Carine M Mardorossian argues that this differential treatment of rape has exacerbated the ghettoizing of sexual violence along gendered lines and has repeatedly led to women s being accused of triggering if not causing rape through immodest behavior comportment passivity or weakness Contesting the notion that rape is the result of deviant behaviors of victims or perpetrators Mardorossian argues that rape saturates our culture and defines masculinity s relation to femininity both of which are structural positions rather than biologically derived ones Using diverse examples throughout Mardorossian draws from Hollywood film and popular culture to contemporary women s fiction and hospitalized birth emphasizing that the position of dominant masculinity can be occupied by men women or institutions while structural femininity is a position that may define and subordinate men minorities and other marginalized groups just as effectively as it does women Highlighting the legacies of the politically correct debates of the 1990s and the terrorist attacks of 9 11 the book illustrates how the framing of the term victim has played a fundamental role in constructing notions of agency that valorize autonomy and support exclusionary especially masculine models of American selfhood The gendering of rape including by well meaning sometimes feminist voices that claim to have victims best interests at heart ultimately obscures its true role in our culture Both a critical analysis and a call to action *Framing the Rape Victim* shows that rape is not a special interest issue that pertains just to women but a pervasive one that affects our society as a whole
