**The "Inscrutably Chinese" Church** Nathan Faries, 2010-01-01 The first half of the twenty first century promises to be a time of great change for the Christian church in the People's Republic of China The situation is complex and fluid and the information gap between those on the inside and those outside of China is still significant though shrinking The Inscrutably Chinese Church moves readers nearer to the Chinese Christian experience as Nathan Faries helps foreign readers to see with greater clarity just how Chinese Christians view their government and themselves in relation to those ruling powers There still exists a measure of inscrutability about China and its complex relationship with religion that must be explained to the outsider It is this gap in understanding between insider points of view within China and those outsiders seeking knowledge about the Christian faith in China that Faries seeks to close

the main issues of faith salvation and the quest for a modern China Author Fredrik F Ilman investigates similar developments in earlier centuries by linking past and present forms of cultural Christian phenomenon and the beliefs and ideas of Liu Xiaofeng and other scholars Their focus on Christianity implies a criticism of traditional Chinese value systems in particular Confucianism and Daoism The introduction of Christian theology and values into Chinese academia is a way of creating greater understanding for Western culture Many cultural Christians argue that this advanced understanding is a prerequisite for establishing a modern China Issues of personal faith and identity are also central in respect to modernity as well as to individual and national salvation Post Mao China is seeking a new foundation for values and cultural Christians have a definite role to play Since the choice of Christianity is an expression of individuality freedom and criticism of political structures cultural Christians will ultimately help in laying foundations for a theology in Chinese relations between the intellectuals and the Church The impact and importance of cultural Christians is becoming more visible now than ever before

**Global Religions** Mark Juergensmeyer, 2003-03-20 Can Islam be located on a map Is Europe the center of the Christian world Is India a Hindu nation While decades ago these questions were often answered in the affirmative the truth has never been that simple Not only are adherents of particular faiths spread across the globe but there are many variations of a particular faith practiced side by side This has only become more true in recent years as the pace of globalization has quickened The essays collected here provide brief and accessible introductions to the major world religions in their global contexts The volume begins with an introduction to the globalization of religion by Mark Juergensmeyer and is followed by individual essays on Christianity Islam Judaism Hinduism Buddhism

and local religious societies The book concludes with three essays reflecting on the global religious scene Taken together these essays provide a concise authoritative and highly readable introduction to the state of worldwide religion in the 21st century     Failing to Contain Religion Carsten Timothy Vala,2008     *State And Society In China* Arthur Rosenbaum,Chae-Jin Lee,2019-09-03 This book portrays the subtle irreversible changes in China and revealing the leadership s major failure to create a set of rational workable political institutions It considers the changing role of social classes and their relationship to the state     Marxist Intellectuals and the Chinese Labor Movement Daniel Y. Crowley,2005-11 One hundred years after the birth of Karl Rahner the contributors to this book ask whether and how RahnerOs theology can address new religious and cultural realities in the twenty first century particularly those realities found on what has come to be called Othe Pacific Rim O Stretching from California and Latin America and across the Pacific Ocean to Asia this geographic region manifests an incredible cultural and religious diversity but also many points of intersection and interpenetration resulting in new forms of religion and spirituality The theological categories generated by Rahner such as the anonymous Christian and even the notion of a world church meet steep challenges when read in contexts very different from that of Germany and the theological currents of the OAtlantic O At the same time the encounter between Rahner and the Pacific Rim results in fresh readings of Rahner not previously imagined not only in places like China and Mexico but even Los Angeles Anchored by a seminal essay by Francis X Clooney S J Harvard contributors include Thomas Sheehan Stanford Catherine Bell Santa Clara and George Griener S J Berkeley Each essay examines the possibilities and limitations of RahnerOs theology in this newly configured Pacific world     **Christian Social Activism and Rule of Law in Chinese Societies** Chris White,Fenggang Yang,2021-06-10 Although Christianity has been a minority religion in Chinese societies Christians have been powerful catalysts of social activism in seeking to establish democracy and rule of law in mainland China Taiwan Hong Kong and diasporic communities The chapters gathered in this collection reveal the vital influence of Christian individuals and groups on social political and legal activism in Chinese societies Written from a range of disciplinary and geographical perspectives the chapters develop a coherent narrative of Christian activism that illuminates its specific historical theological and cultural contexts Analyzing campaigns for human rights universal suffrage and other political reforms this volume uncovers the complex dynamics of Christian activism highlighting its significant contributions to the democratization of Greater China     **China and Democracy** Suisheng Zhao,2014-06-11 China s dramatic economic growth in the last two decades of the last

century and the prospect of its rise as a great power in this new one have greatly increased its weight and importance in world affairs. Consequently the progress or lack of progress of China's transition to democracy has become a central concern of the international community. This timely collection brings together many well-known scholars to systematically explore China's current government and assess that transition toward democracy. The contributors seek to bridge the gap between normative theories of democracy and empirical studies of China's political development by providing a comprehensive overview of China's domestic history, economy, and public political ideologies. Overall, the volume contends that Chinese culture and Confucianism are not the obstacles to democratic transition that some scholars have said they are, and that the success of market reforms has eroded authoritarian rule. This weakening does not guarantee a successful transition, however, and the contributors show that there are many reasons to be skeptical about the short-term prospects for democracy in China, including historical failures, the underdevelopment of civil society, political apathy, and competing social values. Though China's political culture is essentially neither anti-democratic nor pro-democratic, it must still overcome many obstacles in order to achieve democracy.

*Mo Yan in Context* Angelica Duran, Yuhua Huang, 2014-11-01. In 2012 the Swedish Academy announced that Mo Yan had received the Nobel Prize in Literature for his work that with hallucinatory realism merges folk tales, history, and the contemporary. The announcement marked the first time a resident of mainland China had ever received the award. This is the first English language study of the Chinese writer's work and influence, featuring essays from scholars in a range of disciplines from both China and the United States. Its introduction, twelve articles, and epilogue aim to deepen and widen critical discussions of both a specific literary author and the globalization of Chinese literature more generally. The book takes the root-seeking movement with which Mo Yan's works are associated as a metaphor for its organizational structure. The four articles of Part I, *Leaves*, focus on Mo Yan's works as world literature, exploring the long shadow his works have cast globally. Howard Goldblatt, Mo Yan's English translator, explores the difficulties and rewards of interpreting his work, while subsequent articles cover issues such as censorship and the performativity associated with being a global author. Part II, *Trunk*, explores the nativist core of Mo Yan's works. Through careful comparative treatment of related historical events, the five articles in this section show how specific literary works intermingle with China's national and international politics, its mid-twentieth-century visual culture, and its rich religious and literary conventions, including humor. The three articles in Part III, *Roots*, delve into the theoretical and practical extensions of Mo Yan's works, uncovering the vibrant critical and cultural systems that ground Eastern and Western literatures and cultures. *Mo Yan in Context* concludes with an epilogue by sociologist Fenggang Yang, offering a personal and globally aware reflection on the recognition Mo Yan's works have received at this historical juncture.
