The Revival Styles in American Memorial Art Peggy

McDowell, Richard E. Meyer, 1994 From the late eighteenth through the early twentieth centuries a sweeping movement in architectural and decorative taste dominated Western cultures Known collectively by the descriptive term Revival Styles this phenomenon which left a rich visual legacy upon the cultural landscapes of many nations exhibited three primary manifestations Classical chiefly Greek and Roman Gothic or Medieval and Egyptian or Near Eastern In America for a variety of reasons a significantly large amount of the creative energy inherent in the Revival movement was directed towards the conception and erection of spectacular monuments and memorials to prominent Americans Frequently designed and executed by the leading architects and sculptors of the day the great majority of these strikingly beautiful artifacts and structures were placed in the large rural cemeteries of American cities developed in the middle decades of the nineteenth century where they remain for future generations to analyze and admire In this richly illustrated volume art historian Peggy McDowell and folklorist Richard E Meyer blend their respective disciplinary perspectives along with their shared long standing fascination with cemeteries and funerary material culture to provide a thoroughgoing descriptive analysis of this dramatic chapter in the history of American memorial art BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Jews led to funeral practices unique in the American colonies Focusing on pieces created between 1695 and 1802 this volume offers a detailed examination of the tombstones and grave markers from 18th century Charleston It discusses not only the general trends and the symbolism of the period s gravestone art such as skulls portraits ascending souls and stylized vegetation but also examines specific instances of these popular motifs Tombstones from Charleston s oldest and most significant churches including the Circular Congregational Church St Philip s Anglican Church the French Huguenot Church and the First Scots Presbyterian Church are explored in detail The work looks at how Charleston gravestones differed from funerary art elsewhere in the American colonies and reveals them to be some of the earliest examples of American sculpture A guide to colonial gravestone symbols and a glossary of relevant Latin terms are also included Clasped Hands Leonard Victor Huber,1982 **The Cemetery Book** Tom Weil,1993 **Subject Catalog** Library of Congress, **Art Books** ,1979 Including an international directory of museum permanent collection catalogs *Bennington Review* ,1978 **Library of Congress Catalogs** Library of Congress,1980 Paperbound Books in Print ,1984 **Books in Print** ,1982 **The New Yorker** Harold Wallace Ross,Katharine Sergeant Angell White,1978-08
