**Sound, Sign, and Meaning** Ladislav Matejka, 1976      **Conversations with Robert Frost** Peter Stanlis, 2017-07-05 These core conversations between Peter Stanlis and Robert Frost occurred during 1939 1941 They are written in the much larger context of nearly a quarter century of friendship that ended only with the passing of Frost in 1963 These discussions provide a unique window of opportunity to appreciate the sources of Frost's philosophical visions as well as his poetic interests The discussions between Stanlis and Frost were held between six consecutive summers 1939 1944 when Stanlis was a student at the Bread Loaf Graduate School of English These were augmented by additional exchanges at Bread Loaf in 1961 1962 These conversations provide original insights on important subjects common to both men Frost insisted that it was impossible to make a complete or final unity out of the conflicts between spirit and matter Ordinary empirical experience and rational discursive reason and logic could not harmonize basic conflicts He held that the best method to ameliorate apparent contradictions in dualistic conflicts was through the play of

metaphorical thinking and feeling Metaphors included parables allegories fables images symbols irony and the forms and techniques of poetry such as rhyme rhythm assonance dissonance personifications and connotations These are the arsenal from which poets draw their insightful metaphors but such metaphors are also the common property of every normal person A poem is a momentary stay against confusion a form of revelation for a clarification of life but not a final absolute answer to the mysteries and complexities in man s life on Earth So too at their best are science religion philosophy education politics and scholarship as a means of ameliorating human problems      *Teaching Modern Latin American Poetries* Jill S.
