**After Sound** G Douglas Barrett, 2016-08-11 After Sound considers contemporary art practices that reconceive music beyond the limitation of sound This book is called After Sound because music and sound are in Barrett's account different entities While musicology and sound art theory alike typically equate music with pure instrumental sound or absolute music Barrett posits music as an expanded field of artistic practice encompassing a range of different media and symbolic relationships The works discussed in After Sound thus use performance text scores musical automata video social practice and installation while they articulate a novel aesthetic space for a radically engaged musical practice Coining the term critical music this book examines a diverse collection of art projects which intervene into specific political and philosophical conflicts by exploring music's unique historical forms Through a series of intimate studies of artworks surveyed from the visual and performing arts of the past ten years Pussy Riot Ultra red Hong Kai Wang Peter Ablinger Pauline Boudry and Renate Lorenz and others After Sound offers a significant revision to the way we think about music The book as a whole offers a way out of one of the most vexing deadlocks of contemporary cultural criticism the choice between a sound art effectively divorced from the formal historical coordinates of musical practice and the hermetic music that dominates new music circles today

**The Sculpted Ear** Ryan McCormack, 2020-04-17 Sound and statuary have had a complicated relationship in Western aesthetic thought since antiquity Taking as its focus the sounding statue a type of anthropocentric statue that invites the viewer to imagine sounds the statue might make The Sculpted Ear rethinks this relationship in light of discourses on aurality emerging within the field

of sound studies Ryan McCormack argues that the sounding statue is best thought of not as an aesthetic object but as an event heard by people and subsequently conceptualized into being through acts of writing and performance Constructing a history in which hearing plays an integral role in ideas about anthropocentric statuary McCormack begins with the ancient sculpture of Laocoön before moving to a discussion of the early modern automaton known as Tipu's Tiger and the statue of the Commendatore in Mozart's Don Giovanni Finally he examines statues of people from the present and the past including the singer Josephine Baker the violinist Aleksandar Nikolov and the actor Bob Newhart with each case touching on some of the issues that have historically plagued the aesthetic viability of the sounding statue McCormack convincingly demonstrates how sounding statues have served as important precursors and continuing contributors to modern ideas about the ontology of sound technologies of sound reproduction and performance practices blurring traditional divides between music sculpture and the other arts A compelling narrative that illuminates the stories of individual sculptural objects and the audiences that hear them this book will appeal to anyone interested in the connections between aurality and statues in the Western world in particular scholars and students of sound studies and sensory history *Aesthetics and Music* Andy Hamilton, 2007-08-29 An engaging but sophisticated look at the debates and ideas involved in the aesthetics of music part of a major new series from Continuum
