of the mythical past versus the diminished present and analyzes the difficulties facing any contemporary Western writer. *The Sound of Mountain Water* is both a hymn to the Western landscape, an affirmation of the hope embodied therein, and a careful investigation of the West's cultural and natural legacy. *The Sound of Mountain Water* Wallace Stegner, 1969. *The Mobilized American West, 1940-2000* John M. Findlay, 2023-07. In the years between 1940 and 2000, the American Far West went from being a relative backwater of the United States to a considerably more developed, modern, and prosperous region, one capable of influencing not just the nation but the world. By the dawn of the twenty-first century, the population of the West had multiplied more than four times since 1940, and western states had transitioned from rural to urban, becoming the most urbanized section of the country. Massive investment, both private and public, in the western economy had produced regional prosperity, and the tourism industry had undergone massive expansion, altering the ways Americans identified with the West. In *The Mobilized American West, 1940-2000*, John M. Findlay presents a historical overview of the American West in its decades of modern development. During the years of U.S. mobilization for World War II and the Cold War, the West remained a significant, distinct region, even as its development accelerated rapidly, and in many ways, it became better integrated into the rest of the country. By examining events and trends that occurred in the West, Findlay argues that a distinctive, region-wide political culture developed in the western states, from a commitment to direct democracy, the role played by the federal government in owning and managing such a large amount of land, and the way different groups of westerners identified with and defined the region. While illustrating western distinctiveness, Findlay also aims to show how, in its sustaining mobilization for war, the region became tethered to the entire nation more than ever before, but on its own terms. Findlay presents an innovative approach to viewing the American West as a region distinctive of the United States, one that occasionally stood ahead of, at odds with, and even in defiance of the nation.

Literature and the Environment

George Hart, Scott Slovic, 2004-07-30. The phrase "literature and environment" only achieved popularity in recent decades, yet writers dating back to the explorers of the 1500s and later, such as 19th-century Romanticists as Thoreau, have long been addressing environmental issues through literary expression. This volume introduces students and educators to the field by tracing the evolution of environmental writing in the United States. Chapters written by distinguished scholars offer new perspectives on important environmental issues, guiding readers through 11 carefully selected literary works. Each chapter provides brief biographical information on the author, discussions of the work's structural, thematic, and stylistic components, and insights into the historical context that relates the work to relevant environmental issues. Each chapter concludes with information on works cited. The analyzed works cover a wide spectrum of literature and span nearly 100 years. Included are early writings such as Mary Austin's 1903 *The Land of Little Rain* and famous groundbreaking works such as Rachel Carson's *Silent Spring* 1962 and Gary Snyder's *Turtle Island* 1974. Also included are frequently assigned works of special interest to students such as *The Monkey Wrench Gang* 1975, *The Earthsea Trilogy* 1977, and *Ceremony* 1977. A list of selected further

suggested readings completes the volume Students of literature as well as educators looking for new ways to present social issues will find many ideas and much inspiration in this volume

Landscapes of the New West Krista Comer, 1999 In the early 1970s empowered by the civil rights and women's movements a new group of women writers began speaking to the American public Their topic broadly defined was the postmodern American West By the mid 1980s their combined works made for a bona fide literary groundswell in both critical and commercial terms However as Krista Comer notes despite the attentions of publishers the media and millions of readers literary scholars have rarely addressed this movement or its writers Too many critics Comer argues still enamored of western images that are both masculine and antimodern have been slow to reckon with the emergence of a new far more feminine postmodern multiracial and urban west Here she calls for a redesign of the field of western cultural studies one that engages issues of gender and race and is more self-conscious about space itself_ especially that cherished symbol of western authenticity open landscape Surveying works by Joan Didion Wanda Coleman Maxine Hong Kingston Leslie Marmon Silko Barbara Kingsolver Pam Houston Louise Erdrich Sandra Cisneros and Mary Clearman Blew Comer shows how these and other contemporary women writers have mapped new geographical imaginations upon the cultural and social spaces of today's American West
