The Fantasy Pillow Book Display:

Bachelor Brothers' Bed & Breakfast Pillow Book Bill Richardson, 1998-10-15 A pair of endearingly eccentric bachelors in their fifties and fraternal twins own and operate a bed breakfast establishment where people like them the gentle and bookish and ever so slightly confused can feel at home Hector and Virgil think of their B B as a refuge a retreat a haven where folks may bring their own books or peruse the brothers own substantial library An antic blend of homespun and intellectual humor Bachelor Brothers Bed and Breakfast is a place readers will want to return to again and again RBPH, 2005

The Lesbian Pillow Book Alison Hennegan, 2000 Empirical data is one of the cornerstones of knowledge in the social sciences and yet the researcher often takes it for granted reserving his or her imaginative faculties for finding a theory that fits the data This revealing account of the theory data relationship calls this faith in data into question and establishes a reflexive framework and vocabulary to explore the creative political and philosophical elements of data production Rather than thinking about the theory data fit Alvesson and Karreman will encourage you to consider the research process as one of theory data interplay asking if creative empirical material can challenge established theory and inspire new lines of development and if breakdowns and mysteries encountered in research can be a constructive rather than destructive process They will encourage you to think critically about empirical data in terms of construction rather than verification and most importantly they will encourage you to develop theory that is interesting and novel rather than naive or irrelevant making this title essential reading for those who often find the traditional vocabulary and frameworks of social science research obvious or simplistic
