The Fifth Discipline Fieldbook Strategies For Building A Learning Organization:

The Fifth Discipline Fieldbook Peter M. Senge, 2014-05-14 Create your own guide to mastering the disciplines of organizational learning with this invaluable guide based on the national bestseller *The Fifth Discipline*. The Fieldbook is a must read for anyone serious about building communities of common purpose, collective action, and continuous learning. H. Thomas Johnson, author of *Relevance Lost and Relevance Regained*, says Peter Senge's *The Fifth Discipline* revolutionized the practice of management by introducing the theory of learning organizations. Now Dr. Senge moves from the philosophical to the practical by answering the first question all lovers of the learning organization ask: What do they do on Monday morning? The Fieldbook is an intensely pragmatic guide. It shows how to create an organization of learners where memories are brought to life, where collaboration is the lifeblood of every endeavor, and where the tough questions are fearlessly asked. The stories here show that companies, businesses, schools, agencies, and even communities can undo their learning issues and achieve superior performance. If ever a work gave meaning to the phrase "hands on," this is it. Senge and his four co-authors cover it all, including: Reinventing relationships, Being loyal to the truth, Strategies for developing personal mastery, Building a shared vision, Systems thinking in an organization, Designing a dialogue session, Strategies for team learning, Organizations as communities, Designing an organization's governing ideas. The Fieldbook is designed to be referred to in meetings, planning sessions, during reflections, or anytime a conflict or challenge arises. Open it up anywhere and icons and cross references will lead you from defining the problem to thinking about how to solve it. Mark up the pages, write in the margins, draw, scribble, and daydream, and watch your own guide to mastering the disciplines of organizational learning evolve. The Fifth Discipline Fieldbook: Strategies for Building a Learning Organization Peter M. Senge, 1993 *The Fifth Discipline Fieldbook: Strategies and Tools for Building a Learning Organization* Peter M. Senge, [The Fifth Discipline](#) Peter M. Senge, 2010-03-31 MORE THAN ONE MILLION COPIES IN PRINT One of the seminal management books of the past seventy-five years, Harvard Business Review. This revised edition of the bestselling classic is based on fifteen years of experience in putting Peter Senge's ideas into practice. As Senge makes clear in the long run, the only sustainable competitive advantage is your organization's ability to learn faster than the competition. The leadership stories demonstrate the many ways that the core ideas of the Fifth Discipline, many of which seemed radical when first published, have become deeply integrated into people's ways of seeing the world and their managerial practices. Senge describes how companies can rid themselves of the learning blocks that threaten their productivity and success by adopting the strategies of learning organizations in which new and expansive patterns of thinking are nurtured, collective aspiration is set free, and people are continually learning how to create the results they truly desire. Mastering the disciplines Senge outlines in the book will reignite the spark of genuine learning driven by people focused on what truly matters to them. Bridge teamwork into macrocreativity. Free you of confining assumptions and mindsets.

Teach you to see the forest and the trees End the struggle between work and personal time This updated edition contains more than one hundred pages of new material based on interviews with dozens of practitioners at companies such as BP Unilever Intel Ford HP and Saudi Aramco and organizations such as Roca Oxfam and The World Bank
