## **The First Vietnam War:**

**The First Vietnam War** Peter M. Dunn, 1985      **The First Vietnam War** Shawn F. McHale, 2021-08-26 Shawn McHale explores why the communist led resistance in Vietnam won the anticolonial war against France 1945-54 except in the south. He shows how broad swaths of Vietnamese people were uneasily united in 1945 under the Viet Minh Resistance banner all opposing the French attempt to reclaim control of the country. By 1947 resistance unity had shattered and Khmer Vietnamese ethnic violence had divided the Mekong delta. From this point on the war in the south turned into an overt civil war wrapped up in a war against France. Based on extensive archival research in four countries and in three languages this is the first substantive English language book focused on southern Vietnam's transition from colonialism to independence. [The First Vietnam War](#) Mark Atwood Lawrence, Fredrik Logevall, 2007-03-07 How did the conflict between Vietnamese nationalists and French colonial rulers erupt into a major Cold War struggle between communism and Western liberalism? To understand the course of the Vietnam wars it is essential to explore the connections between events within Vietnam and global geopolitical currents in the decade after the Second World War. In this illuminating work leading scholars examine various dimensions of the struggle between France and Vietnamese revolutionaries that began in 1945 and reached its climax at Dien Bien Phu. Several essays break new ground in the study of the Vietnamese revolution and the establishment of the political and military apparatus that successfully challenged both France and the United States. Other essays explore the roles of China, France, Great Britain and the United States, all of which contributed to the transformation of the conflict from a colonial skirmish to a Cold War crisis. Taken together the essays enable us to understand the origins of the later American war in Indochina by positioning Vietnam at the center of the grand clash between East and West and North and South in the middle years of the twentieth century. [The Road to Dien Bien Phu](#) Christopher Goscha, 2022-03-29 A multifaceted history of Ho Chi Minh's climactic victory over French colonial might that foreshadowed America's experience in Vietnam. On May 7, 1954, when the bullets stopped and the air stilled in Dien Bien Phu, there was no doubt that Vietnam could fight a mighty colonial power and win. After nearly a decade of struggle, a nation forged in the crucible of war had achieved a victory undreamed of by any other national liberation movement. *The Road to Dien Bien Phu* tells the story of how Ho Chi Minh turned a ragtag guerrilla army into a modern fighting force capable of bringing down the formidable French army. Taking readers from the outbreak of fighting in 1945 to the epic battle at Dien Bien Phu, Christopher Goscha shows how Ho transformed Vietnam from a decentralized guerrilla state based in the countryside to a single party communist state shaped by a specific form of War Communism. Goscha discusses how the Vietnamese operated both states through economics, trade, policing, information gathering, and communications technology. He challenges the wisdom of counterinsurgency methods developed by the French and still used by the Americans today and explains why the First Indochina War was arguably the most brutal war of decolonization in the twentieth century, killing a million Vietnamese, most of them civilians. Panoramic in scope, *The Road to*

Dien Bien Phu transforms our understanding of this conflict and the one the United States would later enter and sheds new light on communist warfare and statecraft in East Asia today China and the First Vietnam War, 1947-54 Laura M.

Calkins,2013-04-12 This book charts the development of the First Vietnam War the war between the Vietnamese Communists the Viet Minh and the French colonial power considering especially how relations between the Viet Minh and the Chinese Communists had a profound impact on the course of the war It shows how the Chinese provided finance training and weapons to the Viet Minh but how differences about strategy emerged particularly when China became involved in the Korean War and the subsequent peace negotiations when the need to placate the United States and to prevent US military involvement in Southeast Asia became a key concern for the Chinese The book shows how the Viet Minh strategy of all out war in the north and limited guerrilla warfare in the south developed from this situation and how the war then unfolded

Asia after World War II was clear enough but the purpose of the Commonwealth in the region later became shadowy British involvement in the wars fought in Vietnam between 1946 and 1975 has been the subject of a number of books most of which focus on the sometimes clandestine activities of politicians and unsubstantiated claims about British support for the United States war effort have gained acceptance Drawing on previously undiscovered information from Britain s National Archives this book discusses the conduct of the wars in Vietnam and the political ramifications of UK involvement and describes Britain s actual role in these conflicts supplying troops weapons and intelligence to the French and U S governments while the latter were in combat with Ho Chi Minh s North Vietnamese The first Vietnam war. **Vietnam 1946** Stein Tonnesson, 2010 Vietnam 1946 is a masterful narrative of the immediate origins of the first Vietnam War It is by turns vivid and shocking it is always immensely revealing T nnesson brings forensic clarity to crucial events about which even now some sixty years later fundamental misapprehensions exist An outstanding work of scholarship of major international importance Martin Thomas author of Empires of Intelligence T nnesson captures brilliantly the 1946 confrontation between two republics France determined to redeem itself from Axis humiliation by regaining Indochina Vietnam equally determined to retake independence after eighty years of colonial servitude T nnesson also demonstrates however that some leaders on each side really wanted a peaceful mutually beneficial outcome Descent into full scale war was not inevitable This is a carefully researched clearly written analysis of a vital moment in the 20th century history of both countries It is also a meditation on the elusive boundary between free will and determinism in human affairs David Marr author of Vietnamese Tradition on Trial 1920 1945 Stein T nnesson s Vietnam 1946 answers the fundamental question about the first of Vietnam s 20th century wars the one fought against the French how did it happen He has written a meticulously researched account which restores their contingency to the events The first Indochina war like those that succeeded it was not inevitable and T nnesson explains why and how it happened anyway Marilyn Young author of The Vietnam Wars 1945 1990

The Tragedy of the Vietnam War Van Nguyen Duong, 2014-07-15 What Americans call the Vietnam War actually began in December 1946 with a struggle between the communists and the French for possession of the country but Vietnam's strategic position in southeast Asia inevitably led to the involvement of other countries Written by an officer in the Republic of Vietnam Armed Forces this poignant memoir seeks to clarify the nuances of South Vietnam's defeat From the age of 12 Van Nguyen Duong watched as the conflict affected his home family village and friends He discusses not only the day to day hardships of wartime but his postwar forced relocation and eventual imprisonment A special focus is on the anguish
