The First Day Of School Early Success:

A Long, Long Trail Kent Gill, 2015-01-16 A long life fully lived might appropriately be documented in some concrete long lasting retrievable form So at the risk of being charged with hubris I here have accounted for those years giving credit to ones who accompanied me along the way and implying the values that have motivated me It has been a life of striving of involvement of reaching out for new experience of celebrating successes and learning from failures This journey has been deeply rewarding taking me from the onion fields of Western Colorado to the tranquil forests of Central Oregon through junior high classrooms and hotel conference rooms over High Sierra passes to the offices of government and to many foreign countries Here I share that life story

Podium Ben Oakley, 2014-07-19 What does it really take to make the podium Which of the biological environmental and psychological factors really shape a champion s route to the top To answer these questions Ben Oakley has taken the original step of combining existing research with a study of leading athletes autobiographies Looking at the early histories and initial challenges of serial champions in their own words Podium sheds new light on their commonalities A similar focus in training similar influences around them and above all similar mental attributes are revealed and tales of individual brilliance are given a fresh twist From Ian Thorpe Usain Bolt and Chrissie Wellington to Victoria Pendleton Lionel Messi and Roger Federer all we see is a smooth progression to glory but each is a rocky path punctuated by critical episodes and it is the response to these events that can transform talented people into winners Podium is fascinating reading for anyone interested in the big names at the peak of their respective sports and essential for coaches or parents of the next budding star This enthralling read will enrich your interpretation of champions lives and provide a map of the complex paths through sport to the podium
