Investigations at Supersonic Speeds of 22 Triangular Wings Representing Two Airfoil Sections for Each of 11 Apex Angles Eugene S. Love, 1949 The results of tests of 11 triangular wings were conducted at Mach numbers 1.62, 1.92, and 2.40 to determine the effect of leading edge shape and to compare actual test values with the nonviscous linear theory. The two series of wings had identical plan forms: a constant thickness ratio of 8 percent, a constant location of maximum thickness point of 18 percent, and a range of apex half angles from 10 to 45 degrees. The first series had an elliptical leading edge and the second series a wedge leading edge. Measurements were made of lift, drag, pitching moment, and pressure distribution, the latter being confined to three wings at one Mach number. *The American Catalogue*, 1905

Pointed Roofs Dorothy Richardson, 2014-09-11 The first chapter volume of Dorothy Richardson's thirteen-volume novel series *Pilgrimage*. *Pointed Roofs* is a coming-of-age story. The protagonist is Miriam Henderson, seventeen years old. *Pointed Roofs* tells the tale of Miriam's first adventure as an adult teaching English at a finishing school in Hanover, Germany. Though the tale is simple, it is not simply told to capture the intensity of Miriam's seemingly mundane experiences. Richardson developed a new narrative technique labeled stream of consciousness by the author May Sinclair. *Pointed Roofs* is a compelling account of a young woman's dawning consciousness of what it means to be independent, an individual, and a woman in the early twentieth century. This Broadview Edition places Richardson's inventive narrative technique in the context of early twentieth-century literary modernism, showing the startling newness in May Sinclair's words of Richardson's writing. Letters from Richardson to friends, publishers, and critics show the complex relationships between her work and life.

Winsor McCay Winsor McCay, 2003 This book is the first definitive collection of McCay's earliest accomplishments in newspaper cartooning, containing *Dream of The Rarebit Fiend*, *Tales of the Jungle*, *Imps*, *Little Sammy Sneeze*, and *A Pilgrim's Progress*. The four series that are included in *Early Works* showcase McCay's sophisticated artwork and storytelling styles. *Jungle Imps* is the only collection that was not written by McCay. It was originally published in the Cincinnati *Enquirer* in 1903, and the Sunday editor of the *Enquirer*, George Randolph Chester, wrote the stories in verse, which McCay then illustrated. *Jungle Imps* marked McCay's first foray into the world of the newspaper comic strip, to be followed by *Little Sammy Sneeze* in 1904 and *Dream of the Rarebit Fiend* in 1905, both of which are also collected here. McCay's unique manipulation of the comic art form with bird's-eye views and unusual perspectives
