The Chinese and Indian Corporate Economies Raj Brown,2017-02-03 This is a compelling analysis of the corporate economies of China and India which are having a huge impact not just on the international economy but also in the geopolitical and international strategy sphere as a result of an accelerated globalisation by these two countries which is unleashing powerful economic challenges to corporate structures economic institutions and law worldwide The big question is how after centuries of underdevelopment China and now India are emerging powerfully and pulling ahead of Western European economies Analysing the role of the state and the adroit use of law and their impact on the corporate evolution of both China and India provides greater clarity and insight into why China has evolved as a manufacturing nation utilizing cheap abundant labour while India has not exploited such advantages but instead focused on IT and higher value industries even abroad as Tata has demonstrated in the motor industry in Europe Again while Chinese corporations have expanded abroad as an arm of the state into Asia Middle East Africa Europe Latin America and parts of the southern states of the USA India has pushed principally into Europe through

the efforts of powerful minority capitalists of Parsi and Gujarati background overcoming technological gaps and differences through acquisitions and absorptions of existing corporations in particular industries especially in steel automobiles and textiles In China state owned corporations have been dominant In India though state owned enterprises have been powerful since 1951 it has been private capitalists with an established stronghold since the colonial period and even under the Socialist period from 1951 1991 who have been the more productive main actors both in India and abroad *Commerce and Finance* ,1928 **Advances in Investment Analysis and Portfolio Management (New Series) Vol 7** Cheng F. Lee,2016-01-01 Advances in Investment Analysis and Portfolio Management New Series is an annual publication designed to disseminate developments in the area of investment analysis and portfolio management The publication is a forum for statistical and quantitative analyses of issues in security analysis portfolio management options futures and other related issues The objective is to promote interaction between academic research in finance economics and accounting and applied research in the financial community **Proceedings of the 2024 2nd International Conference on Finance, Trade and Business Management (FTBM 2024)** Amalendu Bhunia,John Gong,Ran Zhang,2024-10-26 This book is open access FTBM 2024 will be held in Hangzhou China during August 23 25 2024 The conference will focus on the Finance Trade and Business Management discuss the key challenges and research directions faced by the development of this field in order to promote the development and application of theories and technologies in this field in universities and enterprises and provide innovative scholars who focus on this research field engineers and industry experts provide a favorable platform for exchanging new ideas and presenting research results Internet of Things Planned highlights of FTBM 2024 include Addresses and presentations by some of the most respected researchers in the Finance Trade and Business Management Panel discussions Presentations of accepted academic and practitioner research papers a poster paper session Artificial Intelligence for Financial Risk Management and Analysis Derbali, Abdelkader Mohamed Sghaier,2025-04-08 The revolution of artificial intelligence AI impacts various business sectors including accounting and finance Machine intelligence is on the rise in human interaction as novel technologies automate tasks and enhance human capabilities at an increasingly rapid rate While AI has the potential to assist in the identification and management of risks such as in financial risk measurement analysis and management the disruptive nature of these emerging technologies introduces new and complex scenarios Utilizing these technologies to facilitate decision making processes could result in biased inequitable and unreliable decisions giving rise to concerns regarding data privacy and security Further research is necessary to understand the implications of AI in financial practices Artificial Intelligence for Financial Risk Management and Analysis delves into the most recent advancements in AI technologies that facilitate risk analysis and decision making It examines the potential risks these technologies pose to individuals businesses and establishments Covering topics such as firm management automation and long short term memory LSTM networks this book is an excellent resource for financial advisors banking professionals

computer scientists professionals researchers academicians and more **ICEBE 2023** Ernie Hendrawaty, Mohammad Abdullah, Rindu Rika Gamayuni, Neli Aida, Arif Darmawan, Angga Febrian, 2023-12-12 The 6th International Economics Business and Entrepreneurship Conference was held on September 13 14 2023 in Lampung Indonesia Our theme was Echoing the Financial and Digital Transformation to Support Inclusive Economic Growth The process of selecting articles uses a double blind review to ensure the quality of the papers Reviewers were not allowed to know the authors identities The reviewers come from Indonesia Malaysia Turkey and the Philippines The contributions of the ICEBE conference to academia and society are as follows provide knowledge and skills to participants on how to do quality research and community service provide knowledge and skills to participants on how to publish research and community service results in reputable international journal publications disseminate the research and community service results that the participants have carried out review the latest research issues in economics and business especially those related to sustainable development
