**Essentials of Corporate Finance** Ross, 2016-04-16 E book Essentials of Corporate Finance *Essentials of Personal Financial Planning* Susan M. Tillery, Thomas N. Tillery, 2018-09-21 ESSENTIALS OF PERSONAL FINANCIAL PLANNING

Essentials of Personal Financial Planning was written to challenge the status quo by promoting personal financial planning PFP as a profession not as a sales tool to gather assets under management or facilitate sales of insurance products The book takes a comprehensive and integrated approach to PFP for accounting students allowing them to view the profession through the lens of a CPA with integrity and objectivity This book systematically introduces the essentials of all the major PFP topics estate retirement investments insurance and tax as well as The PFP process concepts and regulatory environment Professional responsibilities of a CPA personal financial planner and the requirements of the Statement on Standards in PFP Services Time value of money concepts The book then builds on these foundational concepts showing their interconnectivity and professional opportunities to provide a deeper understanding of PFP and its application After reading this book students will be able to apply the knowledge and skills gained from this course to have an immediate and long term positive impact for themselves and for the clients they serve Essentials on Dynamic Capabilities for a Contemporary World Bruno F. Abrantes, Jesper Lind Madsen, 2023-10-24 This book is about dynamic capabilities DCs in the context of the 21st century in which global challenges seem to come from different quadrants For instance an environmental threat to the planet's sustainability or technological advancements disrupting the traditional value chains call for new business models accompanying societal trends Although the usual approach in dealing with these business models is from a competitiveness perspective the editors of this book avoid it as the approach seems reductive of what the organizations are required to be aware of and cope with in the modern world only to their organizational ecosystems The book offers a compilation of studies on dynamic capabilities covering both cognitive and non cognitive DCs according to the managerial and leadership aspects of technological capabilities Each chapter obeys a certain order within a particular category of DCs and their reading along the book is telling a story showing seminal DCs that a company cannot neglect in the current world Their grouping also is structured in one way that one might be a preparatory reading for another Researchers working on the dynamic capabilities approach will particularly benefit from the discussions provided within this book Essentials of Econophysics Modelling Frantisek Slanina, 2014 This book is a course in methods and models rooted in physics and used in modelling economic and social phenomena It covers the discipline of econophysics which creates an interface between physics and economics Besides the main theme it touches on the theory of complex networks and simulations of social phenomena in general After a brief historical introduction the book starts with a list of basic empirical data and proceeds to thorough investigation of mathematical and computer models Many of the models are based on hypotheses of the behaviour of simplified agents These comprise strategic thinking imitation herding and the gem of econophysics the so called minority game At the same time

many other models view the economic processes as interactions of inanimate particles Here the methods of physics are especially useful Examples of systems modelled in such a way include books of stock market orders and redistribution of wealth among individuals Network effects are investigated in the interaction of economic agents The book also describes how to model phenomena like cooperation and emergence of consensus The book will be of benefit to graduate students and researchers in both Physics and Economics     Investing Essentials Harry Domash,2011-06-02 This is the eBook version of the printed book If you liked this Short you might also like Fire Your Stock Analyst Analyzing Stocks On Your Own 2nd Edition 9780137010233 by Harry Domash Available in print and digital formats Six short and sweet quick start investing primers practical guidance on ETFs dividend stocks growth stocks emerging markets mutual funds closed end funds and more Harry Domash s six quick start investing guides give you crucial information for investing profitably in any market environment Learn what you need to know without useless theory or number crunching that doesn t matter Includes practical up to the minute primers on ETFs emerging markets dividend stocks growth stocks advanced growth stock analysis and mutual funds closed end funds     **Stock Market Basics for Beginners** Isabella Martin,2024-06-14 A thorough manual called Stock Market Basics for Beginners is intended for those who are unfamiliar with stock market investment This book breaks down challenging ideas into manageable chunks and offers practical advice to help you begin investing with confidence It does this by simplifying the intricacies of the stock market Whether you are new to investing or wish to expand your knowledge this book gives you the fundamental knowledge and valuable tools you need to make wise financial decisions It helps novice investors grasp the stock market comprehend important ideas like equities market trends and fundamental and technical analysis and create a diversified portfolio that is in line with their financial objectives It is written in an easy to read language Along with covering a variety of investing strategies risk management tactics and informational resources this guide makes sure you are well equipped to succeed financially in the long run By the time you finish reading Stock Market Basics for Beginners you will understand the various kinds of stocks that are available how the stock market works and how to begin investing You ll learn how to read stock charts use technical analysis to spot patterns assess a company s financial health using fundamental research and choose stocks that align with your investment strategy The book offers techniques to safeguard your investments and reduce possible losses emphasizing the value of diversity and risk management It also provides advice on budgeting opening a brokerage account and establishing financial goals Stock Market Basics for Beginners gives you the information and assurance you need to make wise choices and create a profitable financial future regardless of your financial objectives growing your wealth saving for retirement or achieving financial security It is your indispensable ally as you navigate the stock market s complexity and develop into a profitable investor     Essentials of Stochastic Finance Albert N.
