Stockholding Price Stabilization And Futures Trading Some Empirical:

Stockholding, Price Stabilization and Futures Trading Wouter Zant, 1998 Farmers of primary commodities in developing countries face substantial income risk due to price fluctuations What is the size of the welfare gains to be obtained from hedging price risks and what is the size of the costs of using such a facility These questions constitute the centerpiece of this book and are explored on the basis of data on the Indian natural rubber market The empirical work confirms that short run response to prices comes largely from arbitrage activities on the part of stockholders and this suggests that prices may be stabilized without government intervention *Pulses for Food and Nutritional Security of India* Poornima Varma, 2022-08-20

This book provides an in depth analysis of India s pulses sector in terms of production prices markets and trade Pulses play a pivotal role in a developing country like India for all categories of people due to its rich protein content double that of wheat and three times more than that of rice Despite being an important crop from the point of view of food nutrition and environmental security the focus of food security policies in developing countries has been more on wheat and rice production This book analyses factors influencing the supply of pulses with a greater emphasis on government interventions such as minimum support price MSP and National Food Security Mission NFSM the effectiveness of MSP and factors influencing farmers access to MSP the import dependency implications through a detailed import pricing behavior of major importers of major pulses It investigates production market dynamics and trade implications related to two major pulses chickpea and pigeonpea produced by all pulse producing States in India Analysis of farmer s awareness of MSP and factors influencing access to MSP are undertaken through a comprehensive household survey from the States of Maharashtra Karnataka and Madhya Pradesh Finally the book analyses import implications and import pricing behaviour for all major pulses imported by India The book would be very useful for researchers working on the issues of agricultural production and food security for agriculture and agri business students as well as for policy makers to understand the inherent dynamics in the pulses sector

Price Stabilization on World Agricultural Markets Bernd Lucke, 2012-12-06 International commodity markets have traditionally attracted the attention of economists econometricians and policy makers especially in and following politically tumultuous times For instance the primary commodity price boom of 1973 74 and the subsequent period of highly volatile world market prices initiated increased research on commodity markets which quickly focused on possible price stabilization schemes particularly on buffer stocks Simultaneously the issue clearly advanced in priority on the political agenda such that the United Nations Conference on Trade and Development UNCTAD proposed an Integrated Program for Commodities IPC intended to stabilize the world market prices of ten so called core commodities UNCTAD 1974 1976a Behrman 1979 Many developing nations welcomed the IPC almost enthusiastically but it did not receive more than lukewarm support by major industrialized countries apparently due to the experience with some thirty international commodity agreements past World War II Critical evaluations have among others been presented by McNicol 1978 Gordon

Ashworth 1984 and Macbean Nguyen 1987 The most detailed of these studies is Gordon Ashworth's who concludes that on balance the performance of international commodity agreements has been too unreliable and their distributive effects too uneven to secure the development goals that have been set 1984 p 284 3 Consequently the IPC turned out to be quite controversial a topic on the UNCTAD's 1976 meeting in Nairobi and has not been able to gain any impetus since [These were cocoa coffee copper cotton jute rubber sisal sugar tea and tin] **Kerala's Economic Development B A**

Prakash, 2004-09-22 This entirely new edition of a successful textbook provides a detailed understanding of Kerala's economic backwardness the reforms required and the performance of the economy during the post liberalisation period This collection of 17 original essays focusing on current economic problems and development issues affecting Kerala will serve as a basic textbook for graduate and post graduate students of Kerala's economy *Agricultural Markets Instability* Alberto Garrido, Bernhard Brümmer, Robert M'Barek, Miranda Meuwissen, Cristian Morales-Opazo, 2016-01-08 Since the financial and food price crises of 2007 market instability has been a topic of major concern to agricultural economists and policy professionals This volume provides an overview of the key issues surrounding food prices volatility focusing primarily on drivers long term implications of volatility and its impacts on food chains and consumers The book explores which factors and drivers are volatility increasing and which others are price level increasing and whether these two distinctive effects can be identified and measured It considers the extent to which increasing instability affects agents in the value chain as well as the actual impacts on the most vulnerable households in the EU and in selected developing countries It also analyses which policies are more effective to avert and mitigate the effects of instability Developed from the work of the European based ULYSSES project the book synthesises the most recent literature on the topic and presents the views of practitioners businesses NGOs and farmers organizations It draws policy responses and recommendations for policy makers at both European and on international levels *Agricultural Commodity Markets and Trade* Alexander Sarris, David Hallam, 2006-01-27 This book argues that the viability of many observed market and non market interventions in agricultural products worldwide depends considerably on the underlying behaviour of the relevant commodity markets Many of these policies have had distortive impacts resulting in much discussion and controversy in the context of the World Trade Organization WTO Doha Round of trade negotiations *Primary Commodity Prices* L. Alan Winters, David Sapsford, Centre for Economic Policy Research (Great Britain), 1990 This book reports the proceedings of a major international conference on Primary Commodity Prices Economic Models and Policy held in London under the auspices of the Centre for Economic Policy Research in March 1989 **Developing Countries and the International Economy** David Evans, David Greenaway, 1991 First Published in 1991 Routledge is an imprint of Taylor Francis an informa company Commodity Models for Forecasting and Policy Analysis Walter C. Labys, Peter K. Pollak, 2024-02-01 Originally published in 1984 this book remains as relevant as when it was first published At that time the oil crises of the 1970s and the growing international debt burden highlighted the

extent to which events in primary commodity markets continue to influence the economies of developing and industrialized economies alike Commodity modelling has become a valuable tool in efforts to predict and understand the behaviour of commodity markets and thereby reduce their fluctuations This book provides an overview of the nature of the different types of commodity model as well as their diverse applications In non technical language the reader is introduced to the underlying modelling methodologies including their advantages limitations and commodity specific implications The book will be of interest to commodity economists traders and analysts economic planners and those involved in agricultural mineral and energy modelling Economics of Futures Trading B.A. Goss,B. foundational content for those familiar with the field Commodity, Futures and Financial Markets L. Philips,2012-12-06 Louis Philips The stabilisation of primary commodity prices and the related issue of the stabilisation of export earnings of developing countries have traditionally been studied without reference to the futures markets that exist or could exist for these commodities These futures markets have in turn been studied in isolation The same is true for the new developments on financial markets Over the last few years in particular since the 1985 tin crisis and the October 1987 stock exchange crisis it has become evident that there are interactions between commodity futures and financial markets and that these interactions are very important The more so as trade on futures and financial markets has shown a spectacular increase This

volume brings together a number of recent and unpublished papers on these interactions by leading specialists and their students A first set of papers examines how the use of futures markets could help stabilising export earnings of developing countries and how this compares to the rather unsuccessful UNCTAD type interventions via buffer stocks pegged prices and cartels A second set of papers faces the fact largely ignored in the literature that commodity prices are determined in foreign currencies with the result that developing countries suffer from the volatility of exchange rates of these currencies even in cases where commodity prices are relatively stable Financial markets are thus explicitly linked to futures and commodity markets
