Andrew M. Cooper, 2016-12-05 Challenging the idea that a writer's work reflects his experiences in time and place Andrew M Cooper locates the action of William Blake's major illuminated books in the ahistorical present an impersonal spirit realm beyond the three dimensional self Blake Cooper shows was a formalist who exploited eighteenth century scientific and philosophical research on vision sense and mind for spiritual purposes Through irony dialogism two way syntax and synesthesia Blake extended and refined the prophetic method Milton forged in *Paradise Lost* to bring the performativity of traditional oral song and storytelling into print Cooper argues that historicist attempts to place Blake's vision in perspective as opposed to seeing it for oneself involve a deeply self contradictory denial of his performativity as a poet artist Rather Blake's expansion of linear reading into a space of creative self conscious collaboration laid the basis for his lifelong critique of dualism in religion and science and anticipated the non Euclidean geometrics of twentieth century Modernism

Shakespeare and Renaissance Ethics Patrick Gray, John D. Cox, 2014-07-24 *Shakespeare and Renaissance Ethics* examines representations of moral choice in Shakespeare's plays focusing on intellectual history Montaigne and Christian ethics *Law and Literature* Richard A. Posner, 2009-04-30 *Law and Literature* is the only book length treatment of a widely popular subject that is drawing considerable academic attention Leading legal scholar Richard Posner believes that courses and scholarship in law and literature provide an attractive alternative to courses and scholarship in jurisprudence philosophy of law especially since the study of literature can assist lawyers and judges by sharpening their rhetorical skills The revised edition features considerable new material including a consideration of plagiarism as well as discussions of novels that grapple with issues very pertinent today such as illegal immigration global warming bioterrorism surveillance artificial reproduction and virtual reality Posner also discusses the role of the law in popular literature movies and television

Hamlet Harold Bloom, 2009 Discusses the characters plot and writing of *Hamlet* by William Shakespeare Includes critical essays on the play and a brief biography of the author **Keats and Scepticism** Li Ou, 2023-07-31 *Keats and Scepticism*

explores Keats's affinity with the philosophical tradition of scepticism and reads Keats's poetry anew in the light of this affinity. It suggests Keats's links with the origin of scepticism in ancient Greece as recorded in Sextus Empiricus's *Outlines of Scepticism*. It also discusses Keats's connections with Montaigne, the most important Renaissance inheritor of Pyrrhonian scepticism; Voltaire, the Enlightenment philosopher whose sceptical ideas made an indelible impact on Keats; and Hume, the most thoroughgoing sceptic after antiquity. Other than Keats's affiliative ideas with these sceptical thinkers, this book is particularly interested in Keats's experiments with the peculiar language forms, modes and genres of poetry to convey the non-dogmatic philosophy. In this light, it re-reads *Isabella La Belle*, *Dame sans Merci*, the 1819 odes *the two Hyperions*, *King Stephen* and *Lamia*, all of which reveal Keats's self-reflexive and radical sceptical poetics in challenging poetic dogmas and conventions. This book is for Keats lovers, students, teachers, scholars or non-academic readers who are interested in Romanticism, nineteenth-century studies or poetry and philosophy in general. This original, accessible interdisciplinary study aims to offer the reader a fresh perspective to read Keats and appreciate the quintessential Keatsian poetics.

Thinking with Shakespeare William Poole, 2017-12-02 Shakespeare's works do not embody any doctrine or set of beliefs as his critics have long been tempted to suggest, but they do stage encounters with certain kinds of thinking: ethical, political, epistemological, even metaphysical, that still concern us nowadays. They can be shown to draw on ancient philosophies: Platonism, Stoicism, Scepticism, either directly or through medieval and continental Renaissance thought. Or their scenarios can be likened to those of other kinds of intellectual argument, such as legal or theological discourse. The essays collected in this volume demonstrate the value of thinking with Shakespeare, either as embodied in Shakespeare's own creative programme or in our use of philosophical paradigms as an approach to his works. The contributors are Colin Burrow, Terence Cave, Gabriel Josipovici, Charles Martindale, Stephen Medcalf, Subha Mukherji, A. D. Nuttall and N. K. Sugimura.

A Feast of Strange Opinions: Classical and Early Modern Paradoxes on the English Renaissance Stage 1.1 Emanuel Stelzer, Marco Duranti, 2022-12-15 This volume aims at providing a comprehensive view of the performative as well as heuristic potentialities of the theatrical paradox in early modern plays. We are interested in discussing the functions and uses of paradoxes in early modern English drama by investigating how classical paradoxes were received and mediated in the Renaissance and by considering authors and playing companies' purposes in choosing to explore the questions broached by such paradoxes. The book is articulated into three sections: the first, *Paradoxes of the Real*, is devoted to a theoretical investigation of the dramatic uses of paradoxes; the second, *Staging Mock Encomia*, looks at the multiple dramatic functions of mock encomia and at the specific situations in which paradoxical praises were inserted in early modern plays; finally, the essays in *Paradoxical Dialogues* examine the connections between a number of early modern mock encomia and ancient or contemporary models.

Blind Spots of Knowledge in Shakespeare and His World Subha Mukherji, 2019-04-01 A blind spot suggests an obstructed view or partisan perception or a localized lack of understanding. Just as the brain reads the blind

spot of the visual field by a curious process of readjustment Shakespearean drama disorients us with moments of unmastered and unmasterable knowledge recasting the way we see know and think about knowing Focusing on such moments of apparent obscurity this volume puts methods and motives of knowing under the spotlight and responds both to inscribed acts of blind sighting and to the text or action blind sighting the reader or spectator While tracing the hermeneutic yield of such occlusion is its main conceptual aim it also embodies a methodological innovation structured as an internal dialogue it aims to capture and stake out a place for a processive intellectual energy that enables a distinctive way of knowing in academic life and to translate a sense of intellectual community into print T.S Eliot and the Dynamic Imagination Sarah
