The Late Poems of Meng Chiao Meng Chiao, 2020-09-01 Late in life Meng Chiao A.D. 751-814 developed an experimental poetry of virtuosic beauty a poetry that anticipated landmark developments in the modern Western tradition by a millennium With the Tang Dynasty crumbling Meng's later work employed surrealist and symbolist techniques as it turned to a deep introspection This is truly major work work that may be the most radical in the Chinese tradition And though written more than a thousand years ago it is remarkably fresh and

contemporary But in spite of Meng's significance this is the first volume of his poetry to appear in English Until the age of forty Meng Chiao lived as a poet recluse associated with Ch'an Zen poet monks in south China He then embarked on a rather unsuccessful career as a government official Throughout this time his poetry was decidedly mediocre conventional verse inevitably undone by his penchant for the strange and surprising After his retirement Meng developed the innovative poetry translated in this book His late work is singular not only for its bleak introspection and avant garde methods but also for its dimensions in a tradition typified by the short lyric poem this work is made up entirely of large poetic sequences **Current**
