**Stolen Children, The. Their Stories, edited by Carmel Bird** Carmel Bird, 1998 *Essay Writing Made Easy* Stephen McLaren, 2004-10 The Fiftieth Gate Mark Raphael Baker, Rachel Palgan, 2004 **Identity Politics in Deconstruction** Dr Carolyn D'Cruz, 2012-10-01 Identity politics dominates the organisation of liberation movements today This is the case whether fighting over one's birthright to a nation such as in the Palestinian Israeli conflict lobbying for civil rights such as in gay and lesbian campaigns for marriage or struggling for citizenry recognition as currently experienced by asylum seekers In this book Carolyn D Cruz investigates the nexus between what David Birch describes as the seemingly impossible of high theory and the seemingly accessible possibilities of popular discourse as encountered in liberation movements based on identity D Cruz reworks the logic of such movements through the unique combination of Derridean deconstruction Foucauldian discourse and Levinasian ethics Moving both within and between the domains of philosophy politics and postmodern culture this book offers both a clear explication of complex philosophical issues and an understanding of how they relate to the political practicalities of everyday life **The Cambridge Companion to Australian Literature** Elizabeth Webby, 2000-08-21 An indispensable reference for the study of Australian literature **The Stolen Children** Carmel Bird, 1998 Following the unprecedented demand for the Report on the stolen children which was published by The Human Rights and Equal Employment Opportunities Commission HEROC and retailed at 60 00 here are extracts from the Report which are mostly comprised of the actual stories told by the stolen generations of their experiences These stories are deeply moving and compelling HEROC will not be printing any more copies of the Report and they have given Carmel Bird the right to use the stories in this book so that they become more accessible to the wider population Carmel has also written linking text and included a range of comments from politicians social commentators actors artists and other prominent people At a time when the national attention is sharply focused on the tragedy of the stolen generations and when various institutions political leaders and groups are officially apologising for the policies which saw so many young children being taken from their families this book is extremely timely and quite unique in its content *The Stolen Child* Keith Donohue, 2007-05-08 NATIONAL BESTSELLER A haunting fable about identity and the illusory innocence of childhood that moves from small town America deep into the forest of humankind's most basic desires and fears Utterly absorbing a luminous and thrilling novel about our humanity The Washington Post I am a changeling a word that describes within its own name what we are bound and intended to do We kidnap a human child and replace him or her with one of our own The double story of Henry Day begins in 1949 when he is kidnapped at age seven by a band of wild childlike beings who live in an ancient secret community in the forest The changelings rename their captive Aniday and he becomes like them unaging and stuck in time They leave one of their own to take his place an imposter who must try with varying success to hide his true identity from the Day family As the changeling Henry grows up he is haunted by glimpses of his lost double and by vague

memories of his own childhood a century earlier Narrated in turns by Henry and Aniday The Stolen Child follows them as their lives converge driven by their obsessive search for who they were before they changed places in the world      **The Country of Lost Children** Peter Pierce,1999-06-07 This book traces the figure of the lost child in Australia s history and imagination      Kidnapped Paula S. Fass,1997 A look at the history of child kidnappings and abductions in the United States the motives of the perpetrators the activities of the media and the results in the law and in public opinions

Conceptualising Child-Adult Relations Leena Alanen,Berry Mayall,2002-11-01 Conceptualising Child Adult Relations focuses on how children conceptualise and experience child adult relations The authors explore the idea of generation as a key to understanding children s agency in intersection with social worlds which are largely organised and ordered by adults The authors explore two interconnected themes how children define the division of labour between children and adults and how far children regard themselves as constituting a separate group This book is ground breaking in its focus on the variety and commonality in children s lives and views across a broad range of contexts It provides innovative theoretical approaches to the growing study of childhood by homing in on intergenerational relations as a main concept and draws attention to links across the main sites of children s lives such as the home neighbourhood and school Moreover for policy related issues this book provides food for thought about the social conditions and status of childhood and the factors structuring it

**Indigenous Studies and Engaged Anthropology** Paul Sillitoe,2016-05-23 Advancing the rising field of engaged or participatory anthropology that is emerging at the same time as increased opposition from Indigenous peoples to research this book offers critical reflections on research approaches to date The engaged approach seeks to change the researcher researched relationship fundamentally to make methods more appropriate and beneficial to communities by involving them as participants in the entire process from choice of research topic onwards The aim is not only to change power relationships but also engage with non academic audiences The advancement of such an egalitarian and inclusive approach to research can provoke strong opposition Some argue that it threatens academic rigour and worry about the undermining of disciplinary authority Others point to the difficulties of establishing an appropriately non ethnocentric moral stance and navigating the complex problems communities face Drawing on the experiences of Indigenous scholars anthropologists and development professionals acquainted with a range of cultures this book furthers our understanding of pressing issues such as interpretation transmission and ownership of Indigenous knowledge and appropriate ways to represent and communicate it All the contributors recognise the plurality of knowledge and incorporate perspectives that derive at least in part from other ways of being in the world      **Dictionary of Genocide** Paul R.
